ACCREDITATION ARCHITECTURE

London Review Lady

The T.R.U.S.T. ™ Audit Framework & the Official Accreditation Suite: Rigorous Domestic Testing Backed by Tamper-Evident Design.

Audited Domestic Hero

High-Contrast Core

The Kamado Bono Picnic delivers love at first sight for compact outdoor cooking, backing up striking looks with remarkable heat retention.

Audited over three months of domestic bench testing, achieving an 82 / 100 benchmark score qualifying for The Hall of Fame.

Core Design Principles

Precision Geometry

Concentric stepped rings inspired by horology bezels and international design awards, echoing the website's clean circular visual language.

High-Contrast Pop

A radiant central plaque that isolates the audited score, delivering instant legibility across desktop, tablet, and mobile displays.

Tamper Verification

Distinct authentication serialization (AUTH: LRL-2026-82) and Latin motto ribbons guaranteeing audit validity.

Audited Benchmark

82

OVERALL T.R.U.S.T. ™ SCORE

The Hall of Fame

Following three continuous months of domestic bench testing, the Kamado Bono Picnic achieved an overall 82 / 100 rating. This qualifies the unit for the prestigious Hall of Fame award seal, recognizing outstanding fuel economy and moisture retention.

Kamado Bono Stress Test

- Multi-month testing on outdoor timber patio decking under real UK weather conditions.
- Exceptional convective moisture retention; perfectly cooks whole poultry and delicate seafood.
- Superior thermal efficiency; runs for 3+ hours on a single small load of briquettes.
- Direct radiant bottom heat causes dough scorching in high-temperature pizza testing.
- Proprietary kitchen colander modification solves the missing ash basket friction.

The T.R.U.S.T. ™ Framework

A 5-pillar consumer testing methodology built to evaluate domestic durability, true running costs, and everyday friction beyond manufacturer claims.

Kamado Bono Audit Breakdown

True running costs scored highest at 19/20 due to outstanding charcoal shut-off efficiency, while usability deducted points for 25kg bulk and lack of an ash tray.

Accreditation Tier System

Accreditation Tier	Score Range	Official Badge & Finish	Accreditation Criteria
The Iridium Standard	90 – 100	Silver / Platinum	Virtually flawless domestic engineering, lifelong durability, zero daily friction.
The Hall of Fame	80 – 89	Gold / Amber	Outstanding domestic performer with minor, manageable daily friction (e.g. Kamado Bono).
Approved Bench Test	70 – 79	Sky Slate Blue	Reliable performance meeting strict baseline consumer domestic thresholds.
Unaccredited	Below 70	No Badge Issued	Fails durability, safety, thermal efficiency, or economic domestic thresholds.

T.R.U.S.T.™ Award Badges

APPROVED BENCH TEST
Score: 70% to 79%
Standard Domestic Pass

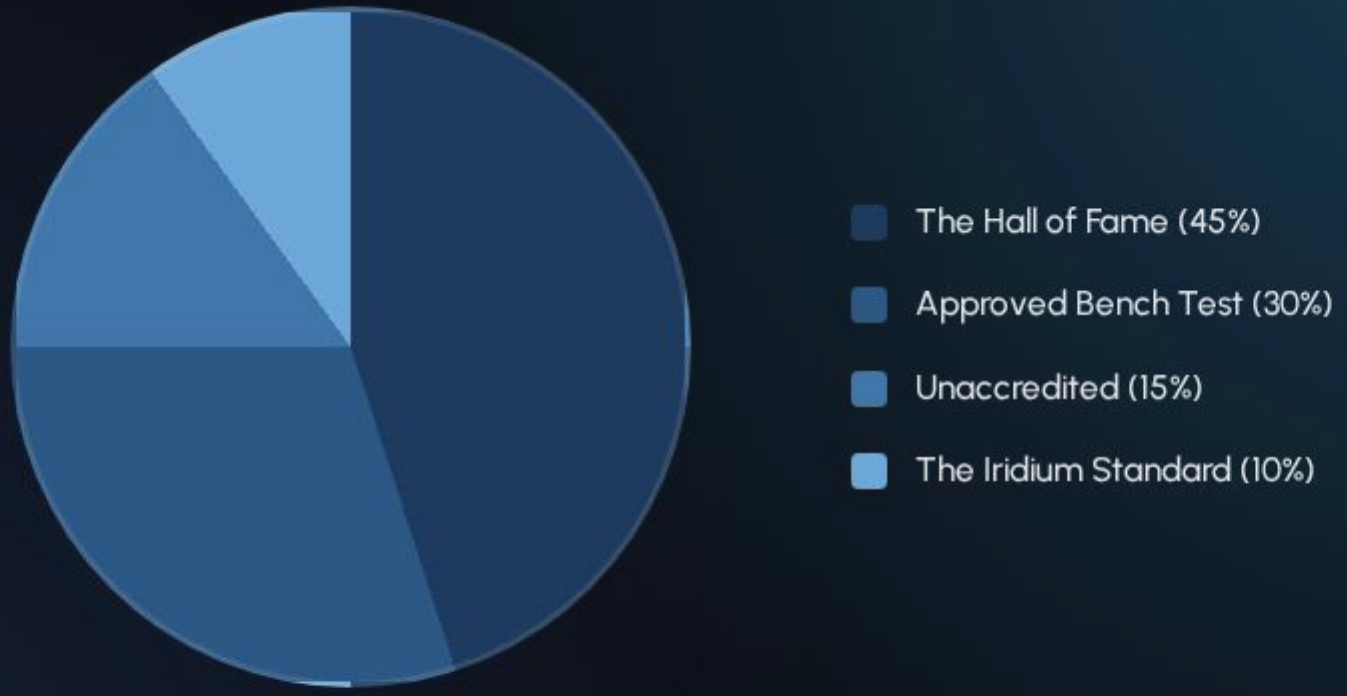

THE HALL OF FAME
Score: 80% to 89%
High Performer Award

THE IRIDIUM STANDARD
Score: 90% to 100%
Pinnacle Engineering Benchmark

Domestic Audit Distribution

The audit distribution reflects stringent consumer standards: only the top 10% achieve Iridium, while 45% earn the Hall of Fame mark.

Questions & Governance

Independent domestic testing, transparent scoring, and reader-funded editorial integrity.
