Bill I haven't met yet with Swift on the proposed Connections+ plan. She said earlier this week. I really can't confirm how this will work but we proposed virtual supports by paras and TAs to the small groups until we go into a balanced plan. At this point we have not thought about the high school students yet. I think we really need to get this settled and see how it works then move into the high school students as supports when we are a bit settled later in September.

Liz

Thanks Silvia,
October 19 start is fine as is not working Tuesday. If you can meet me and Jennifer at AACLC at 8am on Monday, Oct 18 we can work together to meet everyone and get you settled.

You will be paid the same rate as your childcare rate and you will receive the same insurance benefits.
No offer letter is necessary. I will approve the PAF and your account will be set up. I have linked the online timesheet for you to fill out each week and return to me and I will send to finance for payment on the normal bi-weekly schedule. There are no other benefits then what you were receiving through the childcare agreement.

[Fillable Timesheet](#)

I am so glad you have agreed to support the Connections+ program at AACLC. Remember, this is their program and we are just there to support them!

See you next week,
Liz

Hello Liz;

Thanks for all the information. I worked out my schedule but I will not be able to start this week. I will on october 19th if you are OK with that. Also, I could not change an appointment I have on October 20th so I will not be able to work that tuesday. All other activities are now controlled. I am planning to work full time next week except for tuesday.

I have a couple of questions, What is going to be my pay rate? Do I get the same health insurance or I need to enroll again? Are you going to give me an offer letter? What other benefits may be eligible to get?

Thanks a lot for your help and clarification of my questions in advance.

Have a great day.

Subject: Situation at the Connection plus job
To: Liz Margolis <margolisl@aaps.k12.mi.us>

Hello Liz;

I received a call from the AAPS HR person to let me know that I am suspended from this role due to a yielding to the kids and a bee situation. As you know, I just want to make sure that I have so many years working for you at the AAPS without any complaints from anyone and the fact that they have no defined protocols like the ones we have and being detailed trained may be creating a situation that is being perceived as I want to take over the program.

Also, and just FYI, I was asked to wash the restrooms on Wednesday and I believe it is not part of my duty and it is not in the description you gave me. I believe so far with only 4 days that my duties are covered and the extra activities I have been trying to do to help are beyond expectations.

I have not received any complaints from any student directly or by the local staff and I believe the problem is that they are not accustomed to follow, again, what we have been trained to do in the AAPS. I was trying to help to improve the kids as I have always done.

I just want to let you know that I am available for any more information you may need and I am, as always, enjoying working for AAPS.

Best regards

Silvia

LM

The survey is problematic. There was much discussion about the findings from the survey and Dr Swift emphasized the data will help to form our programs and supports.

I would rather not mention the survey. I believe it promised too much for now....

I also think the qualifications for who participates in the Connections+ program are defined by the students the community centers serve and we state who we are serving in our introduction. I don't think it would be helpful to define this further....

If anyone thinks differently please chime in!

Thanks
Liz

Liz,

As I am looking at the document I am wondering where the survey results from the enrollment form will come in.

Does it make sense to add a section that says we will use the results from the survey of partners to determine future Connection+ options?

Also, this doc doesn't speak to who qualifies for Connection+. Is that something that should be added?

Sounds good. We will get the one name from Peace, likely Bonnie and I am confirming now about Jane helping on this....
Thank you

On Tue, Sep 8, 2020 at 12:53 PM Rozelle-Williams, Candyce <rozelle@aaps.k12.mi.us> wrote:
Hi Liz,

We just need to approval for Jane to work on this (not sure how this works or who needs to approve, maybe Dawn?) and Jane probably needs to be asked. Once approved, I can work with Julie to make sure Jane has the access she needs and then I can show her how to proceed. The list of students would include full name, DOB and school (this won't always be right, but is helpful).

Also for Peace and Avalon we need a person to assign the parent account to. With CAN it's Derrick Miller. We will need full name, position and organization email address. FYI - parents will be able to see this person listed in their student's account.

Thanks, Candy

On Tue, Sep 8, 2020 at 12:36 PM Margolis, Liz <margolisl@aaps.k12.mi.us> wrote:

Thank you!

We have the list from Peace and it does include parent permission. It is in a google doc.

I can surely get approval for Jane to help I am just not sure if she should contact Julie to get this done?? I am not sure what I am asking...? Does Jane need to confirm each student's student number? They include their gmail addresses in the google spreadsheet. I know we will be getting this from the CAN locations soon as well.

Liz

On Fri, Sep 4, 2020 at 3:54 PM Margolis, Liz <margolisl@aaps.k12.mi.us> wrote:

Hi everyone,

I want to loop you into the first phase of the Connections+ program with Peace Neighborhood Center.

Jennifer and I met with Bonnie and his team today. Jennifer is set to be at Peace on Tuesday and will be working with ensuring their students have technology next week during orientation week.

Heather, we will really need a direct connection with your office to match students from the Peace program with those who still need devices. Jennifer will work on picking up those devices from ITD along with the proper paperwork and deliver devices to the Peace students.

Julie, Jennifer is getting a spreadsheet with all the proper information on each Peace student in their program including parent permission so we can get Peace staff connected to PowerSchool.

We will also need to engage the Schoology training for Peace staff although many stumbled through it this summer. I will contact James directly with Jennifer to get that scheduled.

We are also asking if there is a district access code so that Jennifer can help students get into Schoology if they don't have their Clever badge or a direct line of who she can call?

The key is the connection. We want to ensure that the students from Peace are connected to their schools and that the schools know Jennifer is the conduit between them and Peace. If a student is not online in the morning, Jennifer can work with Peace staff to track down the student. If a para is assigned to a Peace student they need to know Jennifer is their connection as well as the teacher and principal. Of course we are not replacing the Peace staff but providing more of a direct chain of support.

We expect this program to grow so your support as we kick off is vital!

Thank you
Liz

I'm not sure if there has been much discussion with the "connection plus" gig that AAPS is looking at doing this fall (essentially small group support), but if so, I'd really like to see something happening at the centers at Pauline/Carrot Way. Is this

something that you think might be possible and /or of interest?
Thanks for your consideration,
Bill

Thanks Alicia, I have cc'd Jennifer Nemecek on this email so that we can work together since she is on site at Peace and has been talking w/ Bonnie and his team about these families.

I will wait to hear on Monday if this will start for the family on Friday.
Thanks
Liz

On Fri, Oct 23, 2020 at 2:03 PM Maylone, Alicia <maylonea@aaps.k12.mi.us> wrote:

Thanks Liz, the family moving to [REDACTED] has experienced a tremendously difficult year. After so much disruption I think it's best to support any bit of stability and connection they have, especially with Peace being the only in person option between the two. Next year will be tough enough if they have to move schools and are still navigating the circumstances that lead to the displacement. I agree we can assist the family to start building a relationship with CAN, but this also takes time, especially right now without the ability to form in person connections.

Bonnie and his staff have approved of moving the younger children to the MS/HS days. This means we'd only be looking at transportation Mondays and Fridays. Peace is to make a decision by Monday regarding a permanent change to their schedule, but it appears likely that programming will move to Monday afternoons at 12:30-5, Fridays will remain a morning session.

It would probably be advantageous to wait until Monday to finalize any plans. My hope would be that we could begin for both families the following Monday 11/2. Since the students would be in transit during the lunch period on Mondays and possibly missing a few minutes of class on either side, we are awaiting input from schools as well but I don't anticipate a concern.

I don't suppose they'd be allowed to eat on the bus..would they?! Thanks again,

Sorry....I think we can transport them.....can you provide me with a list and start dates for each family and number of students....I got a bit confused....

The family moving to [REDACTED] may be better served by the [REDACTED] [REDACTED] since it is just over the bridge...?

Liz

On Thu, Oct 22, 2020 at 3:14 PM Maylone, Alicia <maylonea@aaps.k12.mi.us> wrote:

I thought Jill WAS in agreement?! Thanks again for working on this.

I know Bonnie and Maryann were crunching staffing and student numbers to try to move them all to Mondays and Fridays. It seemed like a strong possibility, and a plan everyone preferred. They were going to follow up with me this week.

As for the [REDACTED]

Since Peace hasn't determined if they will have a change in their schedule, I think the best plan is to assume transportation is needed Monday and Friday mornings for both families. If Peace alters the MS/HS schedule in November, transportation would be needed Monday afternoons and Friday mornings instead.

I can confirm what Alicia said. Bonnie talked about both families today at our meeting. [REDACTED]
[REDACTED]
[REDACTED]

We are not bound by the Peace hours either. We have more flexibility. We could keep them all day one of those days, like Monday, or an extended day. In mid-November Peace will change the Monday schedule to give some much-needed support to the high school students after school. I am not 100% sure they want [REDACTED] for the whole day on Monday but at least they would come until 4pm. This change is still under advisement and would not be implemented for a few weeks, however.

[REDACTED]
[REDACTED]
[REDACTED]

[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]

If you do get this approved, I think more details might want to come from Bonnie.

Alicia,

So for now are we set or do you have students with transportation needs beside the Peace family - which I am still looking into with Jennifer?

We have not engaged cab service yet but we do have bus drivers...as we discussed I just want to make sure we are all in agreement with the type of transportation we are providing and meeting the requirements.

Thanks
Liz

On Tue, Oct 20, 2020 at 3:17 PM Maylone, Alicia <maylonea@aaps.k12.mi.us> wrote:

Agreed Liz. It is a finer line, but I'm not sure it's required. My hope was that we could think about this accomodation as a support to some very in need students and to strengthen our Connection+ partnership. I don't think we need to be concerned with setting a precedent with Peace, this is a short term situation, but could carry some longer term educational impacts.

If not through general funds, I'm not sure how Title would assess this. Joanna would be the best source for that information. I might be able to get some support from ISD as well, but they typically fund two days of transportation only.

On Tue, Oct 20, 2020, 1:50 PM Margolis, Liz <margolisl@aaps.k12.mi.us> wrote:

Thank you Alicia,
I am going to have Jennifer Nemecek who is on site at Peace double check on these students with Maryann and Bonnie at Peace and see how we can perhaps combine their days. Then I will speak with Jill again regarding transportation. The issue we are debating is that we would be transporting them to a non-AAPS program but since we are supporting this program what does that legally mean...and I don't mean to make this about legal requirements...we just need to be clear on the service we provide...

Back to you soon,
Liz

Thanks, Nancy. We will start working on this. I think it makes sense for Maria Samaniego to have the staff access.

On Thu, Sep 10, 2020 at 5:23 PM Shore, Nancy <shoren@aaps.k12.mi.us> wrote:

Thanks, Liz!

Mollie, Maria and Lauren, I just shared a Google Sheet where you can input students in order to get Powerschool Access. As Liz indicated, we will need a Parent Permission Form for any student you are requesting access for.

What we can provide is parent-level access. So we will also need to know which staff member at Avalon we can give access. It can only be one person.

Hi Mollie,

I am checking in to see if there are ways that AAPS can help the students living in Avalon housing? Were you able to coordinate any learning pods? Do you need staff to have Powerschool/Schoology access/training? Are you in need of supplies for students?

If you would like to have a phone conversation just let me know.

Thank you

Liz

On Tue, Sep 1, 2020 at 4:00 PM Margolis, Liz <margolisl@aaps.k12.mi.us> wrote:

Thank you Mollie,

As Nancy said we are here to support in the best ways we can keeping health and safety in the forefront.

I want to share that the Community Action Network locations have decided to not host students in their centers due to health concerns. Rather their staff will receive Powerschool access for their students as well as Schoology training to assist with their technology needs and monitor when students are successfully online learning in their classroom. If this is something that Avalon may be more comfortable with we can make arrangements for the access and training. And then when we do go back to the classroom on a blended schedule we can discuss providing more supports to your locations in person.

But know if after your discussion you do decide to host in person supports while virtual learning is going on, we can still provide you with a staff member for a small group of students (under 10) to help support these efforts.

Looking forward to hearing from you,

Liz

On Fri, Aug 28, 2020 at 11:46 AM Mollie Richards <mrichards@avalonhousing.org> wrote:

Hi Liz and Nancy-

Thank you both for all the work you're doing to support students and family as we all navigate the impacts of covid19 on our communities. I'm certain you are both doing so much right now as we head into the school year. I'm writing to follow up in regards to where Avalon is in regards to moving forward with a Connection+ partnership.

We are dedicated to supporting our families as best we can in navigating virtual learning. We are also working through capacity issues in regards to staffing and space. Additionally, we are thinking through safety protocols and what would happen if someone was sick (covid19 or not). Lastly, and maybe most importantly we want to connect with our families and make sure they are interested in attending support at our centers and assess for any other needs/support they may need.

Starting next week we will be connecting with our families to get an understanding as to what support they need around school in the fall and who would be interested in joining a Connection+ pod. Once we have that information we feel we will be more prepared to move forward with a more concrete plan.

We will stay connected as we start to understand who would be interested.

Again, thank you for all the incredible work and support. Please reach out with any questions!

Best,

At this point I have a need at AACLC -Ann Arbor Community Learning Center. It is located at Christ of the Good Shepherd Church on Independence off Packard. They serve 25 hispanic students each day from 8am-4pm but if you are not looking for full time I can consider half days or a few full days a week. These are AAPS students who are being monitored by one Montessori teacher and an assistant. The pastor of the church is there full time. We have very defined supports that we can (and can't) offer. It will be mainly ensuring the students are online in their classes.

To: Hurtado, Silvia hurtados@aaps.k12.mi.us

Thanks Silvia,
October 19 start is fine as is not working Tuesday. If you can meet me and Jennifer at AACLC at 8am on Monday, Oct 18 we can work together to meet everyone and get you settled.

You will be paid the same rate as your childcare rate and you will receive the same insurance benefits. No offer letter is necessary. I will approve the PAF and your account will be set up. I have linked the online timesheet for you to fill out each week and return to me and I will send to finance for payment on the normal bi-weekly schedule. There are no other benefits then what you were receiving through the childcare agreement.

[Fillable Timesheet](#)

I am so glad you have agreed to support the Connections+ program at AACLC. Remember, this is their program and we are just there to support them!

See you next week,
Liz

On Tue, Oct 13, 2020 at 12:14 PM Hurtado, Silvia <hurtados@aaps.k12.mi.us> wrote:

Hello Liz;

Thanks for all the information. I worked out my schedule but I will not be able to start this week. I will on october 19th if you are OK with that. Also, I could not change an appointment I have on October 20th so I will not be able to work that tuesday. All other activities are now controlled. I am planning to work full time next week except for tuesday.

I have a couple of questions, What is going to be my pay rate? Do I get the same health insurance or I need to enroll again? Are you going to give me an offer letter? What other benefits may be eligible to get?

Thanks a lot for your help and clarification of my questions in advance.

Have a great day.

Silvia

Understand! Thanks. No, I think Jen will have her hands full at Peace. I will know today if Jane is available. I think she works with Candy in student accounting so has the ability to know what to do w/ support from Julie!

On Tue, Sep 8, 2020 at 2:05 PM Shore, Nancy <shoren@aaps.k12.mi.us> wrote:
So right now we are trying to get Peace and CAN staff parent-login like access to PowerSchool, right?

I was thinking that Jen might be able to do this instead of Jane. She would need to be told how, though.

Feel free to call if this is confusing. Sometimes it can be hard to communicate over email.

Hi Liz,

We just need to approval for Jane to work on this (not sure how this works or who needs to approve, maybe Dawn?) and Jane probably needs to be asked. Once approved, I can work with Julie to make sure Jane has the access she needs and then I can show her how to proceed. The list of students would include full name, DOB and school (this won't always be right, but is helpful).

Also for Peace and Avalon we need a person to assign the parent account to. With CAN it's Derrick Miller. We will need full name, position and organization email address. FYI - parents will be able to see this person listed in their student's account.

Thanks, Candy

On Tue, Sep 8, 2020 at 12:36 PM Margolis, Liz <margolis@aaps.k12.mi.us> wrote:

Thank you!

We have the list from Peace and it does include parent permission. It is in a google doc.

I can surely get approval for Jane to help I am just not sure if she should contact Julie to get this done?? I am not sure what I am asking...? Does Jane need to confirm each student's student number? They include their gmail addresses in the google spreadsheet. I know we will be getting this from the CAN locations soon as well.

Liz

On Fri, Sep 4, 2020 at 3:54 PM Margolis, Liz <margolisl@aaps.k12.mi.us> wrote:

Hi everyone,

I want to loop you into the first phase of the Connections+ program with Peace Neighborhood Center.

Jennifer and I met with Bonnie and his team today. Jennifer is set to be at Peace on Tuesday and will be working with ensuring their students have technology next week during orientation week.

Heather, we will really need a direct connection with your office to match students from the Peace program with those who still need devices. Jennifer will work on picking up those devices from ITD along with the proper paperwork and deliver devices to the Peace students.

Julie, Jennifer is getting a spreadsheet with all the proper information on each Peace student in their program including parent permission so we can get Peace staff connected to PowerSchool.

We will also need to engage the Schoology training for Peace staff although many stumbled through it this summer. I will contact James directly with Jennifer to get that scheduled.

We are also asking if there is a district access code so that Jennifer can help students get into Schoology if they don't have their Clever badge or a direct line of who she can call?

The key is the connection. We want to ensure that the students from Peace are connected to their schools and that the schools know Jennifer is the conduit between them and Peace. If a student is not online in the morning, Jennifer can work with Peace staff to track down the student. If a para is assigned to a Peace student they need to know Jennifer is their connection as well as the teacher and principal. Of course we are not replacing the Peace staff but providing more of a direct chain of support.

We expect this program to grow so your support as we kick off is vital!

Thank you

Liz

Ann Arbor Public Schools Connections+ **Fall Update 9/3/2020**

The Ann Arbor Public Schools, as part of our current Strategic Partnerships program, is working to create levels of support in collaboration with a selected network of partners via local community centers and organizations through the **Connections+** program.

Connections+ supports students in their virtual classroom learning through either the A2 Student Link or A2 Classroom Connection programs in collaboration with our Strategic Partners. A majority the **Connections+** program will remain virtual while students are in virtual learning. **Connections+** support is not instructional support but rather the AAPS staff member provides a link to the classroom ensuring students are connected and actively participating in virtual learning. As AAPS moves students back into the classroom on a blended schedule additional in person **Connections+** supports will be activated in our schools and at additional Strategic Partner organizations.

AAPS **Connections+** will concentrate supports for students who are not consistently logging into their virtual classrooms and/or have not been progressing in their learning. These supports will be in place at each school. AAPS staff will be assigned to students for the purpose of working directly with teachers on issues of connectivity in the home, ability to access technology, and mental health and wellness. **Connections+** staff, who are a wide range of AAPS employees including Paraprofessionals, Community Assistants, Teacher Assistants and other staff, will also be in contact with the parent/guardian as well as staff at the community centers, providing the vital connection between the student and the school.

Please note that **Connections+** is not direct instruction or service provision in a school building. Rather it is the opportunity for students to be supervised virtually while accessing their online learning classrooms. Where **Connections +** allows for a student's IEP to be implemented, no IEP Amendment and GFELCP will be required. For those students where **Connections +** is not sufficient to provide a FAPE, an IEP Amendment and GFELCP will be developed.

Phase I Connections+ **Fall 2020 - All Students Participating in Online Learning**

Strategic Partner Community Centers

AAPS will make every attempt to assign an AAPS staff member (not teacher) to the designated community center based on a partner agreement while AAPS is in virtual learning. Students associated with partners and community centers will engage in their virtual classrooms at one of the selected community centers. This assistance is designed to establish critical check-ins with students and ensure they are actively contributing and engaged in the virtual classroom during the community center supervised sessions. While AAPS teachers are engaged with their classrooms virtually additional AAPS staff will provide technology support and work with the community center staff member on any issues that arise. The AAPS staff member will actively build relationships with the students, assist in managing their learning day and be a resource for technology issues that require additional ITD support.

During this phase the community center must follow AAPS health and safety protocols and restrict each student group to less than 10 students per the Governor's Emergency Order.

The AAPS staff member will not provide instruction.

AAPS Connections+ School Support

For AAPS students not directly served by a Strategic Partner community center, AAPS staff will be assigned a caseload of students who are not showing progress in their classes to build relationships and support the student and their family to ensure the student is connected and actively participating in the virtual learning platforms. This support will be virtual unless a decision is made by the school administration to conduct a home visit.

The AAPS staff member will not provide instruction.

Phase 2 Connections+ Blended Classroom Supports

When it is determined to be safe to return to the classrooms on a blended schedule, **Connections+** staff will continue to provide additional support to students on their virtual learning days at the community centers as well as the potential to develop small support groups in the schools. As in Phase 1, support will be focused on helping students access and participate in their virtual learning sessions. Direct instruction continues to be provided by the classroom teacher as defined in each phase. Health and safety protocols as agreed upon for Phase 1 must continue.

Connections+ is intended to support local non-profit organizations who have an established partnership with the Ann Arbor Public Schools as well as use AAPS staff for critical relationship building and support for students who are not served by the community centers. During Phase 2 of the district's classroom implementation plan, additional community organizations can be considered for **Connections+** support.

Connections+ Information to the AAPS Community - Guidelines and Tips

AAPS knows that other learning groups are being formed throughout the community to support parents and students during this challenging time of the COVID pandemic. To help parents and other organizations who have formed these student learning groups we have compiled suggested guidelines, tips and resources to help sustain a successful virtual classroom learning environment.

I updated a lot of the document. I made some changes and didn't check if the headlines actually link to the table of content. Can you review that please? I added links and other items.

If you can review and maybe Jennifer can as well, I think it is good to post and share. When it is ready I can ask John for a page to load it then I can share w/ Instructional council, have Andrew share and ask principals to share.

You can share w/ Connection+ programs when the link is live....

Sound OK?

Liz

To: Donna Hawthorne hawthorned@aaps.k12.mi.us

Hi Donna,
Nice to speak with you this morning.

Attached is a description of the Connections+ program. Basically we are providing supports to community centers who are serving AAPS students on site while they are in their virtual classrooms. This is not an instruction position. It is to monitor kids to ensure they are online in their classes, help Peace with any technology issues (you don't have to do the actual tech, just provide connections to our IT department) and a few other monitoring assistance.

If you decide to join us, we will connect you with Jennifer Nemecek to determine a start date to get you orientated. Peace Neighborhood Center is located on Maple Rd.

Here are the hours needed:
7:30-7:45am - 12:30pm Monday/Tuesday/Thursday/Friday
There is a staff meeting at Peace on Wednesday so that will be another few hours.

You will be paid your current childcare rate and submit a timesheet weekly.

If you are interested and available, we do have another in-person program at a church off Packard on Independence. They serve about 25 students, mainly hispanic for full days. If you are interested in more hours we can work towards afternoons at this location.

Please let me know of any questions you have.

Thank you
Liz

Subject: dst_announce Reimagine Learning Plan
To: District Announcement <dst_announce@aaps.k12.mi.us>

To the AAPS Team,

As we approach the end of July next week, it's natural to turn our attention to back-to-school, and yet we all understand that this is a most stressful time in considering the upcoming 2020-21 school year in the context of the current COVID pandemic.

Thank you for your amazing work, AAPS team, throughout the spring and during this summer season. Many thanks to those who are working in our summer learning programs and as we dig into preparing for next year.

We will be sharing much more relevant information with you over the coming days, as we continue to monitor daily COVID infection rates and work together in planning and organizing our work in service to children for the 2020-21 school year. I am confident that, together, we will rise to this challenge, and I appreciate each of you.

We discussed the planning in progress for the upcoming school year 2020-21 at the Board of Education Study Session last evening, exploring the following issues:

- [Overview of AAPS Reimagine Learning Plan](#) 2020-21
- [Public Health Update](#): COVID and planning for a return to schools

•Highlights [Draft Reimagine Learning Plan, Fall 2020](#)

You can follow the links above for more in-depth information on these topics, or if you are interested in watching videos from the meeting, they are available [here](#). Yet, I wanted to provide in this email general highlights of what staff and families can expect when the school year kicks off.

Student Safety First

Student safety remains our top priority, even before teaching and learning. We are hard-wired for student safety: whether it's a regular school activity, such as serving on bus or street-crossing duty, conducting safety drills or, as a Superintendent, remaining watchful overnight to monitor Michigan winter weather to make the safe weather call for student safety. At times, decisions represent a more significant milestone, such as: fighting a court battle to the Michigan Supreme Court to prevent the open carry of weapons in Ann Arbor and Michigan schools or, back in March, making the anguishing decision to close school buildings to protect students and staff, and today, as we evaluate the prospect of a back-to-school season amidst a historic COVID pandemic. As educators and Trustees, we are designed for student safety; student safety is in our very DNA, and this ever-present priority is what drives our considerations, discussion and decision-making today.

The Recommendation

At this time, as the science and current data do not yet support the safe return of all students to in-person instruction in our buildings, the Ann Arbor Public Schools will begin the 2020-21 school year on a virtual learning status.

The week of August 31st is designated as a week of preparation and onboarding activities for AAPS students and families with support from our AAPS team. We will share more specific details about this week of orientation during August.

[All students will report to class online to begin the 2020-21 school year, and learning will be in session in the AAPS, starting on Tuesday morning, September 8th.](#)

This Fall 2020 virtual learning approach will feature daily, real-time, interactive learning, students directly engaged with quality AAPS teachers, classes, curricula and broad program offerings. Please note: the plans for fall will provide a dramatically different and improved interactive education experience from the spring experience.

When COVID data supports a safe return to in-person instruction, the AAPS will deploy a phased approach, bringing students in by grade levels and monitoring health data during this process, beginning with the youngest and students with the most need first.

During the 2020-21 school year, three program choices are available to parents.

AAPS programs feature quality AAPS teachers and rich AAPS curricula and programs. These programs include engagement with students, teachers and classes in a real-time, synchronous classroom that provides for regular feedback, skill development, grades and accrues academic progress toward the next grade level and credit toward graduation.

These program offerings include:

A2 Classroom Connect - a classroom learning opportunity with quality AAPS teachers and staff, curricula and programs that begins virtually, and when it is safe, students will migrate first to a hybrid schedule and then potentially to full, in-person learning. When needed throughout this school year, students may access this classroom virtually.

A2 Student Link – a classroom learning opportunity with quality AAPS teachers and staff, curricula and programs where students are a member of a virtual class, and these students intend to remain entirely virtual AAPS students through at least the fall semester.

A2 Virtual (Grade 6 -12) – an independent learning option where students complete their work in a self-paced approach, receive teacher feedback and engage with their teacher one time per week in an interactive session.

Connections Base Camp Groups

Continuing throughout the 2020-21 school year, all AAPS students will be situated and meet regularly in base camp groups (also known by several names across AAPS schools as advisory, forum, SkyTime, etc.). These groups build connections, develop relationships and ensure social-emotional supports are in place throughout the year.

Connection+ Plus Supports

During the time of virtual learning and continuing throughout the 2020-21 school year, AAPS students with the most needs will be provided additional connections and support in small group settings to ensure real-time student and family supports are delivered.

Connection+ Supports are tailored for those students for whom accessing virtual learning presents the greatest challenge. This network of support groups will occur virtually and/or in-person at in-neighborhood community locations, using a safe and socially-distanced approach, dependent on COVID infection circumstances.

Food and nutrition distribution will continue throughout this time, as we have done consistently since March 16th.

Next Steps

We will be back in touch over the coming days with more information, to provide opportunities for input and feedback on our planning and to connect with parents

to reserve their fall program preference for their students.

We all understand the most important steps we must take each day in this community to stabilize and improve rates of infection so that we can move forward to return our students and staff to in-person learning in our school buildings:

- Wear a Mask
- Watch Our Distance – 6 ft.
- Wash Our Hands

As we approach this ‘back-to-school’ season, we all hear and understand the collective cry during this COVID time to get ‘back’ to normal, yet we recognize that for this 2020-21 school year, we will not return in the familiar way we used to do school. Instead, we are moving forward to a new way of learning and school, to reimagine learning, to innovate our approach to best serve our students, support our staff, return to school and enrich a healthy Ann Arbor community.

It takes a ‘whole village to raise our children’ well, and there is no more meaningful endeavor in a strong community. This COVID pandemic reminds us of how closely we are all connected; our fates are inextricably tied together, even in the very air we breathe.

We know this Ann Arbor Public Schools community will rise to this current challenge, support each other and together, we will see our way to better days ahead.

Sincerely,

Jeanice Swift
Superintendent of Schools

Liz,

There is an FAQ about student supports that has some info about Connections+:

The AAPS is currently organizing Connection+ groups that will convene small groups of students, in neighborhood locations and/or virtually if conditions require, with AAPS professional staff who will support students with accessing learning, specialized learning services, completing assignments, offering mental health and other needed supports.

Just wanted to share in case this needs to be changed given what's decided.

Hi Heather,

We are still working on that. If the plan is approved we will have virtual supports for these locations. We are confident that Peace can have staff ready but CAN and Avalon are still working on it... I will let you know, hopefully this week, what has been approved.

Alicia,
So for now are we set or do you have students with transportation needs beside the Peace family - which I am still looking into with Jennifer?

We have not engaged cab service yet but we do have bus drivers...as we discussed I just want to make sure we are all in agreement with the type of transportation we are providing and meeting the requirements.

Thanks
Liz

On Tue, Oct 20, 2020 at 3:17 PM Maylone, Alicia <maylonea@aaps.k12.mi.us> wrote:

Agreed Liz. It is a finer line, but I'm not sure it's required. My hope was that we could think about this accomodation as a support to some very in need students and to strengthen our Connection+ partnership. I don't think we need to be concerned with setting a precedent with Peace, this is a short term situation, but could carry some longer term educational impacts.

If not through general funds, I'm not sure how Title would assess this. Joanna would be the best source for that information. I might be able to get some support from ISD as well, but they typically fund two days of transportation only.

On Tue, Oct 20, 2020, 1:50 PM Margolis, Liz <margolisl@aaps.k12.mi.us> wrote:

Thank you Alicia,

I am going to have Jennifer Nemecek who is on site at Peace double check on these students with Maryann and Bonnie at Peace and see how we can perhaps combine their days. Then I will speak with Jill again regarding transportation. The issue we are debating is that we would be transporting them to a non-AAPS program but since we are supporting this program what does that legally mean...and I don't mean to make this about legal requirements...we just need to be clear on the service we provide...

Back to you soon,
Liz

Paula,
Just to follow up on this request from Friday...

We will need permissions from parents before we can begin looking at these requests. We will also need to know what school these students attend so we can connect them with their school social worker and determine needs. I can share the names of students with IEPs with our special ed staff but again, I need schools and grades. At this point the special ed staff is working directly with families. If translation is needed we can provide that. We are finding out the best way to share IEPs with Connection+ programs as to not violate FERPA.

Thank you
Liz

Folks, I am looping back to this with some further rationale as to why CAN, Peace and Avalon in the future, would like Schoology access.

It is helpful for them to have this access for the students they serve to help monitor their assignments, download assignments, print and support students in a more comprehensive way.

These community centers also provide a lot of support during asynchronous times and it is logistically much more challenging to get each student's Schoology accounts individually, which was also a big reason that they had a consolidated Powerschool account so that staff could login and review academic and attendance information for all of our students instead of logging in and out for each one.

When working with a few hundred kids a day, it really becomes problematic for them, they report and I can understand.

A parent login might be sufficient but if they can have it set up by toggling between kids without having to sign in and out for every kid would be tremendously helpful. Frankly, they report that any access at this point would be helpful as it has severely limited their ability to help some of the kids on a consistent basis.

Thank you
Liz

I do not want to make any promises. This is likely not how this program will end up. I think a generic "thank you" and that we are working on how the Connection+ supports will work within our community is all we can say.

Hello,

In a follow up FAQ video on 7/27, there was mention that AAPS is considering community satellite sites for very small group learning for those students who need the in-person instruction most. My child is not one of those most in need. However, I am wondering, is there is anything I can do to help make that happen here in my B/P school area for those that do need this option?

I'd be happy to help identify sites and reach out to make connections/begin the conversation. I can think of 4-5 places to try off the top of my head.

If you are in need of parent volunteers who are able to help on this front [REDACTED] I have a few friends that come to mind.

Thank you for your continued efforts!
Best,
[REDACTED]

Thank you Liz. I appreciate the follow-up. We are eager to get connected to Schoology. Program registrations are underway but I have a report that I can pull at any time with student registration information and so just let me know who and when I should send that to.

Derrick

On Wed, Aug 26, 2020 at 12:13 PM Margolis, Liz <margolisl@aaps.k12.mi.us> wrote:

Hi everyone,

Please feel free to share this with your staff.

We heard you loud and clear yesterday. We have gone back to the drawing board and are seeing if we can make exceptions to staffing the community centers with AAPS staff such as Parapros. Dr. Swift is leading this effort.

If we can make this happen we will need to confer on cleaning and safety protocols for both your staff, students and AAPS staff. We may be able to help with PPE supplies as well.

Below are our notes from the meeting in terms of Next Steps. Please let us know if anything is missing or misinterpreted.

Thank you again for your honesty and directness. We needed to hear this from you in order for us to make the Connections+ program work for students!

Be in touch again soon,
Liz

Next Steps

AAPS

- Liz to discuss possible in-person AAPS staff support options with Dr. Swift and will get back to everyone within the week.-
Dr. Swift working on this
- Liz to investigate with IT and Child Accounting at providing same access to Powerschool for all Community Center Partners.
- Liz to send Community Centers info in:
 - Plans for Special Ed/IEP support
 - School Day schedules for each level - **Attached**
 - Options for Schoology Training for Staff
 - Tech Distribution

Derrick, Bonnie and Lauren/Mollie, provide information to Liz within the next week:

If AAPS were to have in-person staff how many students could be supported at each center on each day? From the notes, the number of kids that can be supported at a time with 7-9 kids per AAPS Staff member:

CAN

- GBC and Hikone: max 8-10 kids
- Arrowood: 15-20
- Bryant: 25-30

Peace

- 25-40 kids at the large center, 15 at small centers.

Avalon

- 6 kids at a time at each of the 3 centers
- What could the schedule look like at your center to provide the most in-person support from your staff and AAPS staff?

Nancy and Liz will ensure that Centers are supported as much as possible, even if in-person staffing is not available. We will work with the Centers to create plans for supporting students, clarifying communication channels, and other needs.

Hi Pam
I am sorry I haven't gotten back to you about the Connections+ position

Please remind me what we had discussed in terms of location. Are you able to work at Peace Neighborhood Center? They serve students Monday, Tuesday, Thursday and Friday from 7:45am-12:45pm. They are now expanding into afternoons as well.

There is also the Connections+ support at AACLC which is located in the Church of the Good Shepherd off Independence which serves Hispanic students. They operate every day 8am - 4pm.

You would receive the same hourly rate as you do in Childcare and the same benefits.

Let me know what works and we can start you next week.

Thank you
Liz

There seems to be a shift in messaging about Connection+ here. It was originally billed as something *schools* would help facilitate by partnering with community organizations. This framing here seems to suggest that we're providing guidance to families and organizations, but that we're no longer making the effort to create these support groups through community partnerships. We have a number of families that are eager to join and would really benefit from a school/community-partnership Connection+ opportunity. I suspect this messaging might not be well-received. Thoughts? Are there still efforts to create these partnerships and make them available to AAPS students?
