

For The... HIGHER-ED STEM DEPARTMENTS

Science, Technology, Engineering, Art, and Mathematics (STEAM)

Why You Care...

Expanded Reach and Influence:

Create a seamless connection to the university's K-12 education outreach partners, foundation sponsors and business partners

Collaboration Across Levels

Join a public ecosystem to engage and support state/national STEM initiatives, fostering collaboration and resource-sharing with partners.

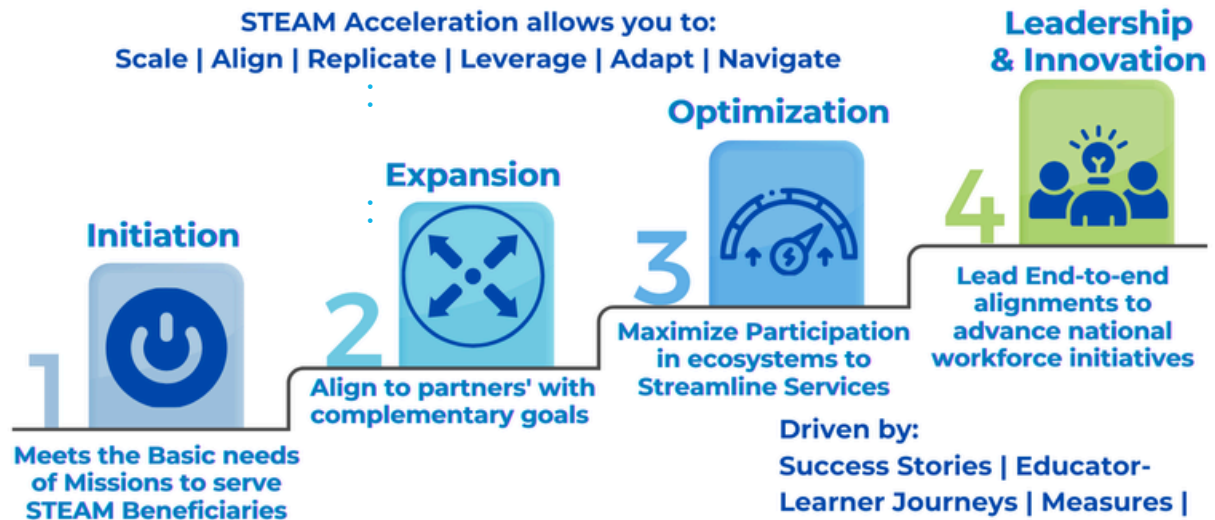

Data-Driven Talent Discovery

Customize KPIs to monitor progress on goals and spot emerging STEM talent from non-traditional pathways to boost innovation and diversity.

Comprehensive Initiative Management:

Use an academic subecosystem to track and manage cross campus collaborative STEAM efforts, ensuring alignment and accountability.

Platform Features

Match Seekers and Givers

Easily connect with individuals and organizations seeking or offering resources and expertise.

Find Collaboration Partners

Discover like-minded collaborators to drive impactful STEM/STEAM projects.

Scale Ecosystems

Expand your network and build a thriving STEM/STEAM ecosystem with our scalable tools.

Inform Your Constituents

Share news, updates, and opportunities to keep your community informed and engaged.

About Us

501(c)(3) nonprofit driving collective impact to increase transparency and cohesiveness in the national STEM/STEAM education to workforce pipeline

Vision

Drive collective impact and increase inclusivity in the national STEM/STEAM workforce pipeline that meets future needs.

Mission

Meet the future workforce needs by connecting and accelerating STEM/STEAM stakeholder outcomes and including the participation of underrepresented communities.
