TECHNOLOGY

DESIGN CONCEPT

- Evolved design, functionality and performance over its predecessor
- Wind tunnel-tested and refined aerodynamics
- Noise-reduction technology reduces unwanted wind and road noise
- New, longer flip-down internal sun shield cuts down on sunlight entering the helmet
- Designed for seamless integration with SENA SRL/SRL2 Communication Systems*
- One-with-the-road experience without sacrificing safety and performance

AERODYNAMICS

- Wind tunnel-optimized to strike the perfect balance between airflow and silence
- Compact, aerodynamic shell shape with integrated spoiler
- Streamlined air intake and exhaust vent covers
- Lift reduction -7% (upward lift force)**
- Drag reduction -1% (forward drag force)**
- Yawing reduction -43% (horizontal pull force at high speed)**

NOISE & TURBULENCE REDUCTION

- Refined in SHOEI's in-house wind tunnel
- Aerodynamic shell shape reduces wind noise
- All-new, airtight window beading provides wind/waterproof seal
- Integrated air dam reduces wind turbulence inside shield
- Enhanced internal sun shield system reduces unwanted noise

INTERCOM-READY DESIGN

- Designed for seamless integration with the SENA SRL/SRL2 Communication Systems
- SRL and SRL2 are specially developed for SHOEI and sold exclusively by SENA*

INTERNAL SUN SHIELD

- Built-in QSV-2 sun shield is 5mm longer and gives riders improved, instant relief from sun glare in one quick motion
- Large, easily located switch activates the 3D injection-molded inner shield
- Distortion-free view and blocks 99% of the sun's damaging UV rays
- All-new locking mechanism simplifies sun shield removal and installation
- Forehead area of outer shell is raised slightly to accommodate internal sun shield, allowing the integrity of the inner EPS liner to remain intact
- Exceeds ANSI Z80.3-2010 Standard for non-prescription eyewear

CJ-2 SHIELD

- Protects from 99% of the sun's damaging UV rays
- 3D injection-molding ensures a distortion-free view throughout entire field of vision
- Integrated air dam increases rigidity and reduces wind turbulence inside helmet
- Pinlock® EVO Ready (lens sold separately)

CJ-2 BASE PLATE SYSTEM

- Smooth and easy shield changes
- SHOEI's patented spring-loaded technology ensures a wind and waterproof seal
- Base plate gear has all-new "first position" shield opening feature
- First position shield opening optimized for advanced venting and defogging without excess wind distractions
- New airtight window beading drains/prevents water from entering helmet

VENTILATION PERFORMANCE

- Developed in SHOEI's wind tunnel for optimal ventilation performance
- Additional upper air intake hole increases air volume into helmet by 30%**
- All-new, patent-pending top air outlet design improves hot air expulsion by 20%**

MULTI-PLY MATRIX AIM SHELL

- Proprietary technology integrates a multi-ply matrix specifically designed to meet DOT standards
- Hand-laid interwoven layers of fiberglass with lightweight organic and high-performance fibers
- Provides optimal impact-absorption, strength and elasticity

4 SHELL SIZES XS-XXL | DOT CERTIFIED | 5 YEAR WARRANTY

SHIELD LOCKING MECHANISM

- Shield locking mechanism provides a secure closure and easy opening
- Prevents rider from inadvertently opening the shield

*For more information on the SENA SRL/SRL2 Communication Systems, please contact your local dealer or visit sena.com

**Reference value comparison measured using SHOEI's in-house wind tunnel testing facilities (J-Cruise II vs. J-Cruise)

MICRO RATCHET CHINSTRAP

- Patented 100% stainless steel interlocking mechanism
- Quick and smooth closure and opening
- Comfortable and easily-adjustable
- Equipped with D-ring for locking helmet to motorcycle

MULTI-PIECE / MULTI-DENSITY EPS LINER

- Provides enhanced impact absorption by utilizing varying densities of foam
- Designed to allow cooling air to travel unrestricted through tunnels created in the EPS
- Precise placement of multi-density EPS material yields a more compact, lightweight design

3D MAX-DRY INTERIOR SYSTEM

- Fully removable, washable, replaceable and adjustable
- Exclusive Max-Dry material absorbs and dissipates sweat 2X faster than traditional nylon
- Three-dimensionally shaped to match the contours of a rider's head
- Multi-layer cheek pads for improved comfort and helmet stabilization
- Optional interior components available in different sizes for a customizable fit
