HELIUM

# TECHNOLOGY

## DESIGN CONCEPT

- Seamless “flip-up” versatility of a true two-in-one helmet
- Wind tunnel-tested shell aerodynamics and noise-reduction technology
- Designed for seamless integration with SENA SRL/SRL2 Communication Systems\*
- Next-level modular helmet design for today’s hybrid motorcyclists

## VENTILATION PERFORMANCE

- Large upper and lower vent shutters for ease of use with riding gloves
- Expanded 3-position upper air intake for increased ventilation performance
- All-new exhaust outlets flank upper air intake for improved hot-air clearing
- Wind tunnel-optimized for dramatically-improved cool-air intake and hot-air expulsion

## AERODYNAMICS

- Wind tunnel-tested aerodynamics optimized for varying riding positions
- Shell-integrated spoiler has been reshaped/repositioned to further reduce lift and drag
- Top air outlet serves as a spoiler while in an upright riding position
- Newly designed ‘Aero Deflector’ for improved chin bar aerodynamics

## NOISE REDUCTION

- All-new ‘Noise Isolator’ cheek pads deflect wind and reduce unwanted noise
- New airtight window bead and the chin bar’s ‘Vortex Generator’ lip reduce noise and manage airflow around the helmet
- Enhanced shell shape improves noise control and aerodynamics

## CNS-3 SHIELD SYSTEM

- All-new design provides improved air/water sealing and noise reduction
- Protects from 99% of the sun’s damaging UV rays
- 3D injection-molding ensures distortion-free view throughout the entire field of vision
- CNS-3 base plate system facilitates smooth and easy shield changes and a wind and waterproof seal
- New airtight window beading drains/prevents water from entering helmet
- Comes equipped with a Pinlock® EVO fog-resistant system

## QSV-1 INTERNAL SUN SHIELD

- Built-in QSV-1 sun shield gives riders instant relief from sun glare in one quick motion
- Large, easily located switch activates the 3D injection-molded inner shield
- Distortion-free view and blocks 99% of the sun’s damaging UV rays
- Forehead area of outer shell is raised slightly to accommodate the internal sun shield, allowing for the integrity of the helmet’s inner EPS liner to remain intact
- Exceeds ANSI Z80.3-2010 Standard for non-prescription eyewear

## MULTI-PLY MATRIX AIM SHELL

- Proprietary technology integrates a multi-ply matrix specifically designed to meet DOT standards
- Hand-laid interwoven layers of fiberglass with lightweight organic and high-performance fibers
- Shell-integrated spoiler with consistent shell thickness ensures proper strength and weight

4 SHELL SIZES XS-XXL | DOT CERTIFIED | 5 YEAR WARRANTY

## FLIP-UP CHIN BAR & FACE SHIELD

- While at rest, converts instantly into an open-face configuration\*\*
- Large lock release button facilitates easy handling with gloves
- Lightweight chin bar/face shield rotate with smooth precision on a variable eccentric-axis, yielding the seamless versatility of a true two-in-one design
- All-new dual locking system for improved holding power when in the fully-opened position

## INTERCOM-READY DESIGN

- Designed for seamless integration with the SENA SRL/SRL2 Communication Systems
- SRL and SRL2 are specially developed for SHOEI and sold exclusively by SENA\*

## MULTI-PIECE / MULTI-DENSITY EPS LINER

- Provides enhanced impact absorption by utilizing varying densities of foam
- Allows cooling air to travel unrestricted through tunnels created in the EPS
- Precise placement of multi-density EPS material yields a more compact, lightweight design

\*For more information on the SENA SRL/SRL2 Communication Systems, please contact your local dealer or visit [sena.com](http://sena.com)

\*\*In order to maximize head protection performance, riding your motorcycle with the face cover in the fully closed position is strongly recommended

**NOISE ISOLATOR****360° PIVOT LOCKING SYSTEM**

- Road tested and made of high-quality stainless steel components
- Safe and secure closure when chin bar is in the down, locked position

**MICRO RATCHET CHINSTRAP**

- Patented 100% stainless steel interlocking mechanism
- Quick and smooth closure and opening
- Comfortable and easily-adjustable

**INTERIOR COMFORT SYSTEM**

- Fully removable, washable, replaceable and adjustable
- Three-dimensionally shaped to match the contours of a rider's head
- Multi-layer cheek pads for improved comfort and helmet stabilization
- New 'Noise Isolator' cheek pads deflect wind and reduce unwanted noise
- Optional interior components available in different sizes for a customizable fit
