

Clinton Early Learning Center GOOGLE PHOTO Release

The teachers in each classroom take pictures throughout the day of children engaged in activities such as art, outdoor time, block play, etc. for documentation purposes and to share with parents. After some research, the teachers have found that **Google Photos** is the easiest way to collectively add photos from the center ipads to be stored in one place. Google Photos has a secure link that only CELC Teachers and Parents will have access to. Please read and sign permission for your child's photos to be on Google Photos. **At no time will these photos be used for media purposes.** This permission is for in center use only. Only parents of children in your child's classroom and teachers will have access to these photos. If you have any questions please do not hesitate to contact us.

I hereby authorize the Clinton Early Learning Center to:
