"People say that you can't go home again, at least you can at the Red Apple! Excellent juice, the most amazing apple cinnamon donuts and fritters to die for! And they still make little apple popsicles. Same as it ever was, and I mean that in a good way. Still amazing!! Worth the drive from anywhere, great selection of pies as well." They also have yummy apples, apple juice or cider, and some many other things the choose from. Make sure you bring cash, they do have an atm just in case." Diane Carpio January 2023 Google

"Red Apple hasn't changed a bit and that's a great thing! I've been coming here since I was a child and love that now I get to share my favorite childhood memory with my family! We happily drive all the way from Modesto to just experience all the apple goodies. Their apple donuts are the epitome of coziness and fall! So flavorful, tender and the crisp little crunch of cinnamon sugar on the outside of the donuts just put them over the top. I especially love their turn overs and make sure to get one of each flavor. I highly suggest that you don't go home without a gallon of their freshly made spiced cider...good hot, cold or used as a cocktail mixer! We will be back, time and time again."
