

## Around

People jogging around the mall  
Enjoying the glass enclosed scenery  
Keeping them warm from the cold  
Different styles in abandonment  
All over the place  
You can make yourself all over again  
If you want too  
Go in and come out with a new outfit  
A new you  
It's fun to take what you have  
And make the most of you  
Be happy and positive  
For it gives everyone else a lift  
A couple of stylish girls just walked by  
With their hair done up  
And so awesome looking  
You just have to look around  
Get the idea  
Do the best with what you got  
Love all around you
