

## Care Not

Laid out forever into dust  
A young one loses to drugs or alcohol  
I got a phone call  
Someone in the neighborhood  
Graduated from the school I went to  
It bothers the heck out of me  
We go on with our daily life to pay the bills  
But I know another died in bed  
Before it was time to go  
Self-inflicted but it stops there  
The addiction is so great  
There are only losers in the use of drugs and alcohol  
I call it so because no matter how many episodes  
Trying to win the fight to overcome the addiction  
You keep winning and losing  
It's so hard to win unless more clinics are established  
Yet if we could only find a strategy of win - win - win  
So they would never be anyone dead from drugs and alcohol  
I believe this should become a big priority all over  
It should be win - win - win for all the children  
They deserve it
