

Carry Me

Carry me on down the road

When I need you

Be there always

Carry me on down the road

Middle of the way

Ain't counting one bit

Carry me on down the road

Love is a hundred percent forever

Can't seize loving you for eternity

Carry me on down the road

I don't want to be your leftover

Available to you after all the others

Carry me on down the road

Never seize to exist for me

Presently you have no match

Carry me on down the road

Figuring on staying now

I'm your directions Baby

Carry me on down the road

Renata Dawidowicz
