

## Detroit

Relaxing in an atmosphere  
Of unforgettable memories  
Of Detroit  
Beauty enjoyed by many  
From the day  
The first explorers set foot here  
We all have our beginning  
So does Detroit  
In 1648 it was visited by French explorers  
But not till 1701 Antoine Cadillac  
Established Fort Pontchartrain  
After the French, it was occupied by the British  
The Detroit river separates Detroit from Windsor  
This incredible beauty is unsurpassable  
Known as the automobile center of the world  
Many jobs were provided for people  
From all over  
Sitting on the shores of Belle Isle  
And watching the sun hide beneath the clouds  
On a warm summer day the boats pass by  
As the children play in the sand  
Sitting at a restaurant in the Renaissance  
Entralled by the gorgeous beauty  
Relaxing in an atmosphere  
Of unforgettable memories  
Of Detroit
