

Do It

Dancing vigorously all around in the early morn
Is a strawberry stripped chipmunk
Sparrows descending gently down
Their wings fluttering simultaneously all around
A black squirrel gives you his fabulous morning grin
And a grew fluffy one with a tale of multi colors
Surveys this domain of energetic activity
While a blue jay with his fabulous dazzling headdress
Darts straight for a nut and flies ecstatically to the sky above
Which blends with his brilliant turquoise blue plumage
Their constant activity of pacing back and forth for their food
Coinciding with each other as everyone gets his desired prize
This flurry of activity continues till all the food is gone
All preparing for the winter snow
