

## Jobs Gone

The senators who did not back a loan for the American cars

I want to know what legislature they passed since they were in office

Did these laws benefit the Americans or the Outer Limits ?

The people in one country of the Outer Limits bought only .02% American cars there

While Americans buy almost 50% of their cars from that country in the Outer Limits

Instant winning lottery - for the Outer Limits who buy only their own cars almost 100%

I am a poet - I am not a politician - but so many have told me of their jobless dilemma

All I know there are Americans who are jobless, homeless, hungry

Like in the Outer Limits the people of that country back only their own car companies

I back American car companies who have given jobs to Americans for a hundred years

This country in the Outer Limits has become one of the wealthiest nations in the world

I want to know how much money they made in the United States Of America ?

How is it they made so much money here but the United States owes them BILLIONS

It's Free Trade - but it depends who's selling and who's buying

Look at all the beautiful states- where are our manufacturing jobs ?

We need jobs in this country and there is no reason not to bring them back fast

If the politicians don't want to pass the necessary laws to help Americans keep working

Then I as a poet have to write WE ALL NEED OUR JOBS IN AMERICA

Unless it happens to you, no one knows how it feels to be jobless, homeless, hungry

And you never know if your job is next in line to the Outer Limits

Did Americans think the Outer Limits is another American State ?

If they did take a good look around at the homeless
