

Want More
If you could want life

Like I do

Without indulging in booze and drugs

Can I help you along

To succeed in this strong goal

If you could want life

Like I do

I understand your need

The desperation in your mind

The human failing crying out

If you could want life

Like I do

Let me tell you

I love you and love you and love you

Don't be depressed now

We can overcome the battle for your life

If you could want life

Like I do

I write this flowing from my mind with obsession

Existence is oblivious without helping you out

Your need is mine so may the challenge be won

If you could want life

Like I do

Renata Dawidowicz
