

Write
For you I write this
Your smile has captivated my heart forever
Though you died suddenly
Others may see you differently
I know you for being always there
To care about me
I feel for you with understanding
You still wanted to accomplish so much
Your dreams you always shared with me
Many many times I think of you unexpectedly
As I pass one of our favorite restaurants
Where we sat together
Till the late hours of the night
The touch of your hand when we met
Faraway chimes swinging in the wind with melody
As we walked together
Too bad we had so little time
Eight years just wasn't enough
I know that you know
I cared for you
A red rose reminds me of you
