**IQAC Student Satisfaction Survey Report**

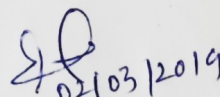

(1/9/2018, 10/12/2018, 2/3/2019)

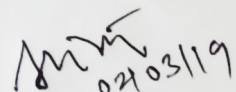

The IQAC conducted student satisfaction assessments on various aspects. The survey was taken in forms prepared by IQAC committee. The committee considers the feedback of only those students who have above 90% attendance in the class. The following ratings were obtained:

1. Punctuality and Regularity of Teachers: 4.2/5  
- Students generally reported satisfaction, acknowledging the punctuality and regularity of instructors.
2. Syllabus Completion: 3.8/5  
- A moderate rating, attributed partly to a limited number of teachers. Addressing staffing concerns could positively impact syllabus coverage.
3. Communication Skills: 4.1/5  
- Positive feedback indicates effective and clear communication by teachers within the academic environment.
4. Method of Teaching: 3.5/5  
- Moderate satisfaction suggests room for improvement; staffing considerations may also influence this aspect.
5. Approachability: 5/5  
- Teachers are highly regarded for approachability, fostering a supportive learning environment.
6. Discipline Enforcement: 3.8/5  
- Positive feedback overall, with considerations for improvement; addressing staffing challenges may contribute to enhanced discipline enforcement.

These insights emphasize the impact of staffing limitations on syllabus completion and teaching methods, suggesting that strategic measures to address staffing concerns could further improve the overall learning experience.
