IRON SERVICE SRL is a customer-focused installation and service company that specializes in providing top-quality, cost-effective solutions for bottling line producers. Our mission is to fully satisfy your needs in terms of efficiency, reliability, and savings.

With our state-of-the-art facility, we have the capability to assemble and commission any machine inhouse prior to delivery if needed. In fact, we can even offer complete line installation and training at our facility prior to shipping to your factory. Our 24-hour technical support ensures maximum productivity by offering rapid assistance, diagnostics, and problem-solving through a fast communication channel. Our team consists of highly qualified technical engineers with extensive experience.

We are experts in installations, start-ups, and testing for bottling and packaging lines. Our team of fifty specialized technicians and engineers meticulously follows each phase of the process. We also provide support for machine audits on existing machines, ensuring reliability and efficiency.

Our staff is trained and constantly updated to guarantee maximum efficiency and professionalism. The DPT Technical Department offers comprehensive system solutions for bottling lines, utilizing cutting-edge research and development to meet specific customer requirements.

At IRON SERVICE SRL, we provide all necessary spare parts, designed, and manufactured in-house. We also offer complete assembly services at our facility, including collection, mechanical assembly, electrical wiring, final testing, and packaging. Our focus is on maintaining high-quality standards with fast assembly times and cost reduction.

We provide a comprehensive, high-quality service to ensure optimum performance and peace of mind:

- 1. SERVICE CALLS:** Our team is ready to respond to your service calls, ensuring fast and efficient assistance in resolving any problems that may arise.
- 2. INSTALLATION AND COMMISSIONING:** We take care of the installation and commissioning of your equipment, ensuring smooth integration into your operating environment.
- 3. TRAINING ON OUR EQUIPMENT:** An in-depth training program is offered for you and your team, to maximize the use of our equipment and guarantee optimal utilization.
- 4. PERFORMANCE AUDITS AND MACHINE DIAGNOSIS:** We carry out detailed performance audits and machine diagnostics to ensure optimal operation and identify any opportunities for improvement.
- 5. PREVENTIVE MAINTENANCE:** Our team carries out regular preventive maintenance to anticipate potential problems, thus prolonging the life of your equipment.
