

The Cards Of Tomorrow

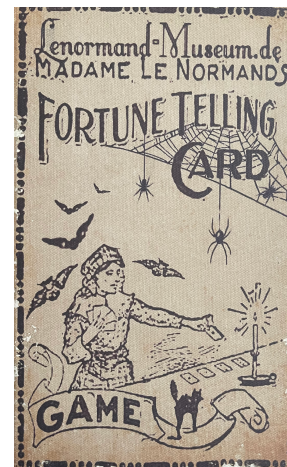

Follow The Instructions . . . The Cards Will Guide You

Cartomancy is the age-old tradition of reading fortunes using playing cards. Any deck of cards can be used but do remove the jokers before you begin the reading new.

The four suits in a deck of playing cards hold symbolic meanings: hearts represent love; clubs are for money; spades for health; and diamonds for destiny or fate.

The colors of each card have meanings too. Red cards suggest passion and vitality while black cards are tied to mysteries, difficulties, and the unexpected.

By studying the interplay of suits, numbers, and court cards the skilled reader can extract detailed insights. Let intuition be your guide.

The Ritual

Choose your four cards in the following manner:

1. Cut the deck into 4 piles.
2. Pick up the first pile and spell your first name - dealing one card for each letter to the table
3. Pick up the second pile and spell your middle name - dealing one card for each letter to the table
4. Pick up the third pile and spell your last name - dealing one card for each letter to the table.
5. Pick up the last pile. This is the destiny pile. Spell the word D-E-S-T-I-N-Y - dealing one card for each letter to the table.
7. Turn over the top card of each pile.

Use the chart on the opposite side of these instructions to interpret the meaning of each card that is now face up in front of you.

	CLUBS	HEARTS	SPADES	DIAMONDS
