Subject: RE: Citation 550 Divan/LSE Potty Installation Approval

Hello Mike,

Just wanted to take a moment to thank you and Athena Aircraft for your assistance on the Divan/Potty installation in our Citation II. The FAA determined, during a conformity inspection of the aircraft, that the installation had been placed in the wrong location back in 2004. Air Trek was putting the aircraft on our 135 certificate when the FAA came across the issue. Your interaction directly with the FAA inspector, and the quick turn around time on the 8110-3 approved data package, allowed me to file an amended Form 337 to correct the issue. This was completed with minimal delay, getting the aircraft on the 135 certificate so it could start serving our customers.

Thank You for the excellent service.

Best Regards,

Wayne A. Carr
President
