

# *Hand Painted Alabastrite® Resin Lion Urn*

This Aged Bronze Design expands on an Italian technique, where bronze powder is combined with a hardened polyresin core. The process turns out cremation urn styles with the sophisticated & stunning look of actual museum & gallery pieces. The urn's motif retains the beautiful luster of antique bronze while being more affordable than a pure bronze configuration.

## *The Lion Sleeps Tonight*

Antique Bronzed Finish

Height: 9" Width: 7" Cubic Inches: 333
