Step 2: Multiple Jobs or Spouse Works	Complete this step if you (1) hold more than one job at a time, or (2) are married filing jointly and your spouse also works. The correct amount of withholding depends on income earned from all of these jobs. Do only one of the following. (a) Use the estimator at www.irs.gov/W4App for most accurate withholding for this step (and Steps 3-4); or (b) Use the Multiple Jobs Worksheet on page 3 and enter the result in Step 4(c) below for roughly accurate withholding; or (c) If there are only two jobs total, you may check this box. Do the same on Form W-4 for the other job. This option is accurate for jobs with similar pay; otherwise, more tax than necessary may be withheld <input type="checkbox"/> TIP: To be accurate, submit a 2021 Form W-4 for all other jobs. If you (or your spouse) have self-employment income, including as an independent contractor, use the estimator.

Step 1 and Step 5

Steps 1 and 5 are required. The rest are optional, but filling them out could help you avoid a surprise tax bill later.

Step 2

Use step 2 if both spouses work or if you have more than one job.

Read the instructions carefully here to avoid errors and not have too little (or too much) tax withheld.

4(c)

If you're self-employed on the side, you can have extra money come out of your paycheck to cover the taxes.
