8.1. RESEARCH SUPERVISION AND LEADERSHIP EXPERIENCE

I currently supervise one PhD student, one self-funded at the University of Helsinki. I have supervised one MA student to successful completion at Helsinki. I am now supervising six MA students at Global Development Studies, University of Helsinki. So far, I played a mentor role for the first year PhD students and the existing ones on academic writing, funding applications, creating a writing group at the Department, organising a workshop on Research Methods and Design at the time of COVID-19 at the Helsinki PGR Conference and in organising the First PhD Forum at the Department. My supervision experience can be found below:

<p>Dislocating Urban Studies: Rethinking Theory, Shifting Practice (DUS) Workshop Series Co-ordinator and Co-PI</p> <p>I have been granted 10,000 Euros with three other early career researchers from the Global South with a workshop funding by the IUR, Malmö University, on 'Dislocating Urban Studies: Rethinking Theory, Shifting Practice' (DUS), where we organized four international workshops series that gathered early career and well known senior scholars to bridge the theoretical and empirical "gap" between the Global North and the Global South/East knowledge production in urban studies field from a non-occidental west perspective. We successfully had the four workshops and run a website to open up the discussions in the workshops to a wider audience (https://dislocatingurbanstudies.com/), which will follow up with new funding applications to organize summer/winter early-career scholars school in the following years (please see the details below) on both publishing and innovative pedagogical venues, and running three workshops on smart cities; racial capitalism and the city; and housing, de-financialisation and sustainable governing. I am currently working as one of the web liaisons for Dislocating Urban Studies, responsible for @DislocatingUS and the website.</p>	2020-2021
<p>Critical Urban Political Economy Network in Nordic Countries (NUPE)</p> <p>I have been also granted 10,000 Euros as the co-I of a seed money funding by the IUR, Malmö University with Lina Olsson (Malmö University), where we started a Critical Urban Political Economy Network in Nordic Countries (NUPE). This initiative focuses on the dynamics of financialisation and neoliberalisation in Nordic cities with a core team of researchers based at Malmö University (Dr. Defne Kadioglu and Dr. Lorena Melgaco Silva Marques) and Helsinki University (Prof. Dr. Sami Moiso and Dr. Mika Hyötyläinen) organizing panels to expand the network and working on large scale funding applications to Riksbankens Jubileumsfond (RJ), Formas, and Swedish Research Council in 2021.</p>	2020-present
<p>HELSUS Global South Encounters Talk Series, Co-ordinator</p> <p>Organising a series of seminars and talks intended to sharpen critical research in sustainability science.</p>	2019-2021
<p>The Global Extractivisms and Alternatives Initiative (EXALT) Member</p> <p>I am also one of the core members of The Global Extractivisms and Alternatives Initiative (EXALT), a new international network of scholars, activists, and policymakers dedicated to collaboration and knowledge creation around the pressing crisis stemming from extractivist policies and practices. I organized a series of virtual talks and organizing virtual EXALT Conference in October 2021.</p>	2020 - present
<p>University of Helsinki, PhD Forum Advisor</p> <p>I initiated and then co-organized 'Research at the time of the Pandemic for PhD Students Workshop' in 2020 at Helsinki. I have also been invited to give a talk on PhD Training and Publication at the Global Development Studies PhD Forum, which I initiated with the students. I am planning to apply for a funding to start a PhD Collective to develop critical thinking and skills of the PhD students as a community as opposed to the rising neoliberal discourse of competition and individualism in contemporary higher education. This funding application is a continuation of the team work of Dislocating Urban Studies Group, where we aim to organise a winter or summer school for PhD students for three to four years on writing and publishing. We will be applying to network funding of Urban</p>	2020

Studies Foundation, Antipode Foundation, Riksbankens Jubileumsfond (RJ), and Nordforsk in 2021-2022.	
AcademyCity Trainings, Chamber of Urban Planners, Izmir, Turkey Giving trainings to urban planning and architecture students and practitioners in local governments at the program called 'AcademyCity' organized by me and three other colleagues with the support of Chamber of Urban Planners, Turkey. These trainings were targeting to develop the skills of the participants in sustainable city futures, local level initiative building, deliberate democracy models. Trainings were up to 25 participants.	2016-2018

Leadership has been a key aspect of my contribution to my academic citizenship, and the wider academic community, and is an area in which I have invested a great deal of time and energy. I finished the Academic Leadership Training Course by the HSSH, UoH, where I developed my leadership skills and extended my network. Thus, I have made a significant contribution to research leadership in my current post among my cohorts. This has involved a **deep commitment to academic citizenship combined with a strategic vision informing change and innovation.**
