

With Bigfoot onboard no jobsite is unreachable

Make light work out of tackling any terrain using the
OptiTraction footprint with Bigfoot Central Tire Inflation Systems

BIGFOOT
CENTRAL TIRE INFLATION SYSTEMS

In the mud, the sand,
the snow and on
the road.... with Bigfoot
onboard you're the
master of traction on
any terrain.

Drivers all over the world choose the **BIGFOOT CENTRAL TIRE INFLATION SYSTEM** so they can match the tire pressure to the speed and the weight of the vehicle on any road surface - at the touch of a button. For over 25 years the Bigfoot system has proven itself over millions of miles covered in all corners of the globe and is the first choice for operators who demand accuracy, endurance and ease of use.

Why do you need adjustable tire pressure?

The benefits of using Bigfoot's OptiTraction system are to monitor and adjust your tire pressures to suit the operating conditions and terrain. Running the wrong pressures has serious detrimental effects on your plant, your drivers, the environment and your vehicle running costs.

Owner Operator Benefits:

- Increase traction, improves vehicle mobility and utilization
- Higher off-highway travel speeds
- Improves driver comfort
- Reduced vibrational damage and shock loading
- Increase tire life

XACTT, LLC
5184 Caldwell Mill Rd, Sutie 204-Box

- Tourism Operators
- Heavy Haulage
- Farming

Powered by Bigfoot OptiTraction

The brain behind the Bigfoot system is the Bigfoot **OptiTraction** control module. The display can be flush or surface mounted and makes monitoring and adjusting tire pressures simple. The display also provides visual and audible alarms.
