

PATIENT E-CARD VOLUNTEER DESCRIPTION

This is a convenient way for patients' families and friends to communicate special thoughts, or expressions of loving concern, through the Duke Hospital website. The service is fast and free. The family member or friend simply enters the room number, name of patient, and message. The E-Card will then become available to the Duke Hospital Auxiliary office staff where it will be printed. The cards should be delivered within 24-48 hours on a business day. *No holidays or weekend deliveries.*

The Auxiliary staff will sort (by floor numbers) each day's stack of cards to be ready for **delivery by volunteers.**

Volunteers must be able to walk distances. This is a very rewarding position because you can brighten the day for many patients.

Program location: Duke University Hospital – North

Training provided: Fire & Safety, as well as other appropriate training, depending on the service area.

Time Commitment: Flexible schedules available
Days: Monday - Friday
