#### **INTRODUCTION**

This Ceylon Perfin catalogue listing is an update of previous work originally done by Mr. Albert G P Ellis c1990, "The Alnis Guide" and revision by Magnus Werner in c1996 I must stress that without their painstaking work I would not have been able to write this catalogue update.

I must also give my sincere thanks to the following collectors who contributed significantly both with images and with new information. Mr. William Hall, U.K. & Mr. Bob Szymanski, U.S.A.

It is an attempt to keep the information flowing and to bring together all known information about the perfins on the stamps of Ceylon.

The Catalogue gives brief descriptions of the various companies who used Security perfin machines in the late 19th and early 20th centuries, I have listed them using a <u>new</u> alphabetical numbering system,

All perfin dies are represented including perfins on Revenue stamps and perfins through the document (cancellators).

You will see that some of the die numbers are highlighted in **RED**, information is lacking on these dies, so if anyone can add any other information, it would be gratefully received and appreciated.

**Note:** Some dies have been deleted from the original listing as they were found to be partials of other dies or Multi Headed dies with only slight differences.

#### Abbreviations.

"Ø" Indicates a suspected user.

"M" After the catalogue number is for Multi Headed die.

### CEYLON & SRI LANKA

Ceylon was a British Crown Colony and under British rule from 1796 to 1948, on the 4th February 1948 it became an independent nation.

A proclamation was made in 1972 and Ceylon was re-named the Republic of Sri Lanka. The new Sri Lankan flag was adopted on December 7th 1978.

To date only 6 companies are recorded as having used perfins on the stamps of Sri Lanka, consequently most perfins are found on the stamps of Ceylon, pre 1972.

A scarcity listing for all of the various different dies can be found at the end of the catalogue.

# NATIONAL BANK OF INDIA

The Calcutta City Banking Corporation was formed in 1863 as an Indian registered bank, changing its name to the National Bank of India (NBI) a few months later. Offices in London and Bombay followed in 1864 and 1865. Crucial to the Bank's future, its head office was transferred to London in 1866 and the Company was registered under the UK Companies Act, giving it much greater international potential, but it was a move that was fiercely contested for many years.

NBI remained with these three offices until 1870 when it sought to exploit opportunities in China with a branch in Hong Kong and, later, in Shanghai. Substantial losses threatened the Bank and the Chinese operations were eventually closed. Without neglecting its domestic market, NBI began to expand around the fringes of the Indian Ocean, particularly Aden and East Africa; by 1900 NBI had 19 branches and £10m of assets.

Steady expansion continued through the early 1900s and by the outbreak of World War I NBI was the seventh largest of the London-registered overseas banks. Growth continued during the War and by 1918 the Bank's assets were £33m with record profits of over £400,000. Around that time, detailed discussions took place with Lloyds Bank and agreement was reached in principle for Lloyds to acquire NBI but, according to the Bank's official history, the proposal was vetoed by 'the authorities'.

The inter-war years saw NBI stagnate, only two new branches were opened and there was no growth in the Bank's assets. More substantial change was to come after the Second World War. In August 1947 India was granted independence with all the turmoil that entailed in the Bank's main market. Undaunted, the following year NBI purchased Grindlays Bank from National Provincial Bank; Grindlays then had deposits of around £20m compared with over £70m for NBI.

C5, C6, C7, & C8, the "CANCELLED/ NBI Ld" Perfin dies which are through the document (Cancelling devices) are all considered to be S4 Average. (Can also be found on the stamps of India & the U.K.)

The "SPECIMEN" Perfins are also scarce, S2 and command high prices.

It is also worth noting that the dies M3, O3.5, O13, O14, S19, T7, & V5. also appear on the stamps of India.

And the dies M4, V6, W3,

also appear on the stamps of Malaya.

It is thought that companies with offices in both countries sent their stamps to Head office to be perfinned, after which they were distributed to their various outlying offices.

# 1935 Silver Jubilee Perfins of Ceylon

For the many collectors of the 1935 Silver Jubilee stamps, I have included below a listing of the current perfin dies to be found on this issue, it is not complete by any means, and if any collectors can provide further information it would be gratefully received,

The list is up to date as of: - November 2020.

<sup>\*</sup> A 6c "DF/&C" with a London Cancel has been reported, (As above).

A new report by Mr. Philippe Antheaume is featured below, any further information to substantiate this die would be welcome.

It has been suggested that it is a Kodak numeral die, similar ones are known from many different countries. Not a true perfin but used to identify ownership of photographs that had been sent in for developing.
