WARNING NOTE

Over the last few years since this catalogue was produced there are other websites in the Perfin world which have sprung up on the internet, they have copied a lot of this information.

Not only have these new websites copied their information from the Perfin Society website, but they state that it is their own work.

I would not recommend using them, as their information in lots of cases is incorrect and out of date, also the images that they portray are not true to scale.

One thing that you can rest assured about is the fact that the Perfin Society website is updated every few months to cover any new information that has been reported.

It is a great pity that there are such unscrupulous people in the stamp world, copying other peoples work and claiming it to be their own, but unfortunately this is a fact of life and the scourge of modern times.

**Any and all new information will be gratefully received,
and will be given due acknowledgement in the catalogue**

BRITISH EAST AFRICA

PERFINS

Only the One (1) perfin die recorded

The area of the British East Africa Protectorate was previously the domain of the Sultans of Zanzibar. In 1887 the administration of the Province was granted to the British East Africa Association, and Post Offices were established at Lamu and Zanzibar early in 1890. In 1903 these stamps were superseded by the stamps of East Africa & Uganda Protectorate.

GENERAL GORDON THE SUDAN

AND PERFINS

For the interest of the collector I am featuring the cutting below, it was written by Rosemary Smith and is taken from the Perfin Society Bulletin 295 August 1998.

From Rosemary Smith

Ever since I first became interested in perfins, in 1970, I have collected any articles which I saw in philatelic magazines which had a bearing on the subject.

One of these articles which I cut out, and only recently re-read, was in *Stamp Monthly, October 1975*. Stuart Rossiter, FRPSL, wrote about 'The Giegler Archive'. Carl Giegler was Chief Engineer of the Telegraphs of the Soudan and the Red Sea, then the Chief of the Posts and Telegraph at Khartoum, and later was raised to the rank of Pasha.

There was an illustration of a letter from Col.Gordon (later General) to Carl Giegler. Unfortunately it is undated but the whole Archive appears to be letters to Giegler mostly from 1874 to 1883. The text of the letter reads:-

My dear Giegler,

If Cartland would perforate all the stamps he sends up here, with the initial S, it would be the best plan, (the British P.O. does this for many great firms in London, to prevent the theft of their stamps.) No perforated stamp could be sold at Cairo, no unperforated stamp could be sold at London.

Every letter from any town, of the Sudan, must have the perforated stamp on it.

*Yours sincerely,
C.E.Gordon*

I would be interested to know if this rings any bells with collectors of Sudan: did these perfins ever materialise? Thanks to John Nelson who confirmed my deciphering of Gordon's letter.

ZULULAND

From an interest point of view I am including this page of **Fake** "ZULULAND" overprints. Over the last few years there have been quite a number of these fake overprints found. Most of them are easily recognized as fakes with the overprint being on top of the cancel, the wrong font, or of the wrong dimensions.

Below are some examples to give the collector an image of what to look out for. British cancels are most prevalent, and wrong dimensions, fonts etc. **Fake** overprints can also be found on British perfin stamps overprinted "British Oil Rivers" & "British Protectorate Oil Rivers"

No genuine overprinted stamps with perfins have so far been recorded.
