PERFIN CANCELS**

# INTRODUCTION

Over the years prominent members of the Perfin Society have recorded many of these dies. The original "GB Official Perfins" was written by Mary Thornton, but some years later this was revised by Tony Edwards & Betty Lucas. However it is some time since the last listing was made of the Unified Series of Crown Circle Cancellers, and the many other cancellation perfin dies that were in operation within the legal system.

This new listing therefore encompasses the original lists plus all other information that has come to light over the intervening years.

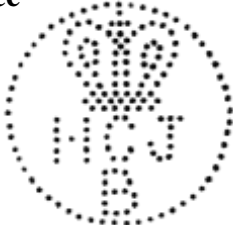

Most of these dies are found perfined through the stamp and document, and it is thought that they were a means of cancelling the document upon completion.

Some dies in this listing are Official perfins which were used on Revenue stamps, or on postage stamps with revenue usage.

If anyone can add any new details to this list, they would be gratefully received. and will be added in due course.
