

A Catalogue of Perfins found on the Stamps of Gibraltar

1900-1908

A Brief History of Gibraltar.

Gibraltar, guarding the entrance to the Mediterranean, has considerable strategic importance and as a consequence has been fought over for centuries by Spain, France, and Britain, each one claiming possession.

What is undeniable is that during the war of the ‘Spanish Succession’, Gibraltar was captured by the British Fleet on 4th August 1704 when an Anglo-Dutch fleet, under the command of Admiral George Rooke, took Gibraltar from the Spanish. The war between Britain and Spain rumbled on, but under the *Treaty of Utrecht* in 1713 Gibraltar was ceded to Britain. The Treaty stated:

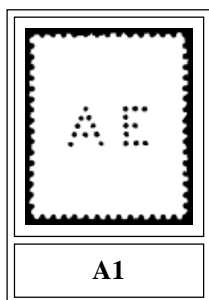

‘the town, castle and fortifications were to be held and enjoyed forever without any exception or impediment whatsoever’.

During World War II ‘The Rock’ was an important base for the Royal Navy, controlling as it does, the entrance to and exit from the Mediterranean. To this day, it remains strategically important, with half the world’s seaborne trade passing through the 8 mile wide strait.

The ‘Stamp Gallery’ that follows has been assembled as a result of a small piece in the Perfin Society Bulletin asking for collectors to report any Gibraltar Postage Stamps they hold with Perfins. Note that there is only *one true Perfin recorded for Gibraltar!*

William Hall has suggested that the user was probably the *Anglo-Egyptian Bank* who opened a branch there in **1888**. They were taken over by Barclays Bank Ltd in 1920.

SG9 ???

Based on its colour, this Queen Victoria stamp may well come from the original 1886 issue. The first 1d stamp of Gibraltar (SG9) was issued in February 1886 in 'Rose', whereas the 1898 *re-issue* (SG40) was in 'Carmine'.

Carmine

The burning question - *'is this Rose or a shade of Carmine'?*

Re-issue on 1st October 1898 of the first Gibraltar stamps which were issued 1886/7.

Also reported are **QV 1d (SG9), 2d (SG10), 2½d (SG11)** - *all unconfirmed* - which come from the original 1886-1887 Issue. These were superseded in August 1889 by Spanish currency *overprints* (which are not known with the "AE" Perfin), which were themselves replaced in October 1889 by Spanish currency *stamps* (which are also not known with the "AE" Perfin).

I suspect these **three** are 1898 re-issued stamps that have been mistaken for the earlier issue.

If you know differently, please let me know!

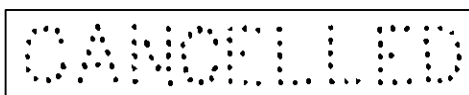

These next two ‘Postage & Revenue’ stamps come from a “**CANCELLED**” Carpet Die, which, based on the stamps used, date to the mid 1920’s.

The next item shows three stamps affixed to an official/legal document, that has been hand stamped with a ‘**SUPREME COURT/CANCELLED/10 JUN 1933/GIBRALTAR**’ cancel, then the word ‘**CANCELLED**’ perforated through both the stamps and the document.

The stamps involved are 5/- (SG105), 6d (SG97a), and 1/- (SG102a).

A much smaller ‘**CANCELLED**’ Carpet Die has been reported, but being on loose stamps, the context is unknown. Based on the stamps, watermark n/k, the die dates to c1905.

We finish this section with a much more modern stamp used on a receipt. Here the date portion has just clipped the stamp, a 2d ‘HMS Carmania’ stamp first issued 3rd April 1967.

Although *not used* in Gibraltar, this final group are included for interest simply because they appear on **Gibraltar stamps** overprinted 'Morocco/Agencies' for use in Morocco.

Comptoir National D'escompte, Tangier.

From 1898-1906, Gibraltar Postage Stamps overprinted 'Morocco Agencies' were used in Morocco. However, on 1st January 1907, the British Post Office took direct control of the post offices in Morocco, where they used British issues overprinted 'MOROCCO/AGENCIES' initially at the offices of the *Gibraltar Chronicle*, then later on in London.
