Original c1990 By Magnus Werner.

Updated 2024 By Jeff Turnbull.

WARNING NOTE

Over the last few years since this catalogue was produced there are other websites in the Perfin world which have sprung up on the internet, they contain a lot of this information.

Not only have these new websites copied their information from the Perfin Society website, but they state that it is their own work.

I would not recommend using them as their Information in many cases is incorrect and out of date, also the images that they portray are not true to scale.

One thing that you can rest assured about is the fact that the Perfin Society website is updated every few months to cover any new information that has been reported.

It is a great pity that there are such unscrupulous people in the stamp world, but unfortunately this is a fact of life.

Preface & Dedication.

It must be stressed from the very beginning that the vast majority of this India perfin catalogue was initially put together in 1990 by the late Mr. Magnus Werner of Sweden, with the assistance of the collectors below.

I have now chosen to update it, and include the various amounts of new information which have come to light over the last 33 years. Mr. Bob Szymanski & the late Mr. Kurt Ottenheimer U.S.A & the late Mr. Pete Maybury S.A. ably helped me along with this task, and many new dies and information are attributed to them. Any other new information would be gratefully received, and will be added as and when time permits.

All of the new information is in **Red Type**, and for the collectors interest there are scans of some of the stamps and covers, the rest being the Magnus Werner catalogue, which remains in its original format.

In Magnus Werner's original catalogue it was stated that the first use of perfins on postage stamps was thought to be on the 1865-67 issues of East India, and I am still of that opinion, Please note that there are now many dies with decimal place numbers, this is to fall in line with the original Werner catalogue numbering system.

Acknowledgements must go to the following collectors for their assistance with the original catalogue of 1990. **(Collectors in red also assisted with the update)**

H5 GVI, Harbour Engineering Services,
Willingdon Island Harbour Cochin. Dated 25-7-1940.

For many years it has been thought that the "**H.E.S.**" H4 & H5
Perfin dies were used by the Hydro Electric Scheme, but
recently (2022) an identifying cover was located in India.
Identifying the user as the Harbour Engineering Services.

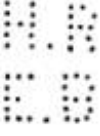

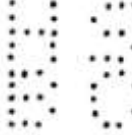

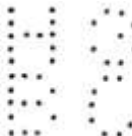

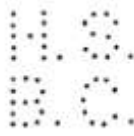

Perfin is inverted

"LFS" LOCAL FUND SERVICES

Notes on the "LFS" perfin dies.

As you will see there are many "LFS" perfin dies in this catalogue. Most of these dies are assumed to be "Local Fund Services" and would be associated with the many different Towns and Cities throughout India.

They are often found with poor strikes and only partial perfin, and the consensus of opinion by other collectors is that the dies were made locally by amateurs and they soon lost pins and became damaged, left in this state they led to the many poor and partial strikes that are to be found.

To avoid confusion with these many partials and poor strikes only the better and most differing images are contained in this catalogue.

I would be pleased to hear from anyone with more knowledge on this subject, so hopefully we can have a better understanding of the Local Fund Services.

Quote from the India List & India Office list of 1905

"Local Fund"

Revenue derived from special sources and devoted to special objects, and not to the general purposes of the administration, whether Imperial or Provincial, forms a "Local Fund".
