WARNING NOTE

Over the last few years since this catalogue was produced there are other websites in the Perfin world which have sprung up on the internet, they have copied a lot of this information.

Not only have these new websites copied their information from the Perfin Society website, but they state that it is their own work.

I would not recommend using them, as their information in lots of cases is out of date and incorrect, also the images that they portray are not true to scale.

One thing that you can rest assured about is the fact that the Perfin Society website is updated every few months to cover any new information that has been reported.

It is a great pity that there are such unscrupulous people in the stamp world, copying other peoples work and claiming it to be their own, but unfortunately this is a fact of life and the scourge of modern times.

INTRODUCTION

It is now many years since the first listing of the Perfins of South Africa & Provinces was produced by the Perfins Club of America (In their World Perfin Catalogue).

And it must be noted that 50% of this update is their original work.

During these intervening years there has been new information which has come to light, and although I have used the original perfin catalogue for some years I have always thought that it could be improved upon.

So I have decided to make up my own version of the catalogue and produce it with an alphabetical numbering system for the different dies. This catalogue (**Section Two**) deals only with the **Post 1910 Union & Republic of South Africa** perfin stamps as in the map above **(In Green)**.

The four separate South African Provinces pre 1910 are dealt with in Section one of the catalogue. There is also user information alongside the Perfin image. A single letter "M" after the die number indicates a multi headed die. A small case "m" indicates a monogram die.

Baker, King & Co: "BB" & "BK" Type perfins

According to information supplied by the Kaffrarian Museum King Williamstown, Thomas Burnham King in partnership with Mr. E Coles Baker, founded the company, Baker King & Co in 1861 in King Williamstown. However it is suspected it was actually founded in 1861 as "Baker Brothers" and Mr. King later became a partner and eventually the sole proprietor. Their business was as "General Merchants and Importers" but they were more "Wholesale Merchants" as they imported goods which they sold to the inhabitants of King Williamstown or sold and traded with the small traders in Kaffraria and Transkei. The business must have flourished as a head office was established in East London, and other premises were sourced in Cape Town and Port Elizabeth. Several premises are recorded in King Williamstown all specializing in general goods, haberdashery, furniture, grain etc.

During the period from the 1890s to the early 1940s, several perforators were in use at different centers, based on a "BB/Co" format and later "BK/Co". Of the eight perfins of this type recorded in South Africa, six have been plausibly identified and two others could well be of the same family. the following six are all recorded on the stamps of the Union.

<u>B1</u>	"BB"	1909-1913	King Williamstown	Suspected user.
<u>B2</u>	"BB"	1912-1940s	King Williamstown	Confirmed user.
<u>B4</u> *	"BB"	1919-1921	King Williamstown	Confirmed user.
<u>B6</u> *	"BB/Co"	1893-1920	King Williamstown	Confirmed user.
<u>B15</u>	"BK"	1923-1943	East London	Confirmed user.
<u>B17</u>	"BK/Co"	1896-1921	East London	Confirmed user.

* Measurements on these two perfin dies suggest that die B4 was created from the die B6 by the removal of the lower "&Co" pins.

Information supplied from the collection of the Late Brian Dennis.

NOTE: -

Re : - South Africa Philatelist June 1991.

Apparently the perforator was kept in Cleveland, USA and "Douane" overprinted stocks were held there for pre-payment of the revenue duty on advertising material to South Africa. It was done there for security reasons. The pattern is also known in USA, Canada & Australia.

Could be that the longer "T" is perhaps from a different site in the USA like with the International Harvester Co Canada perfin dies.

Here are some items worth looking out for :-

They are GB stamps which have been used with a **Cape Town Paquet Boat cancel**. The ship owners would have provided these perfin stamps for their crew to use whilst away from home. The GB perfin stamps would also be sold to anyone at various ports of call on the voyage back from the Cape, who required a letter to be forwarded to the UK. This mail would be franked with the companies perfin stamps and receive Paquet Boat cancels.

A similar practice was also used by the earlier Union Steamship Company Limited.
(See West African Perfin Catalogue Pages 14-15).

CANCELLED 1

Large "CANCELLED"
Perfin covers several stamps.

Found with 1913-14 cancellations, on EDVII provincial postage stamps, Union commemoratives, and GV Kings head postage stamps. Hundreds known. (No mint examples known.)

All denominations from 1d to £1 (no ½d stamps yet seen!) larger denominations just as common as low denominations (apart from £1, which is scarce).

Narrow date range: most between 13 November 1913 and 28 February 1914, but one outlier in September 1921. Wide range of smaller and larger post offices; parcel office cancellations fairly common.

Clear from microscope examination that they were cancelled before they were perfined; probably all by same machine, probably perfined on forms in bundles – a few with retained discs, and would explain placement not really in relation to stamps. ? Audit followed by destruction; one leakage suggested explanations include use on Telegram forms. Use to pay customs duty on foreign parcels seems more likely.

Any information or suggestions welcomed! Especially on piece!! bas.payne@gmail.com

Do not confuse with earlier different CANCELLED perfin on Natal legal documents – letters are different in number of holes, e.g. E is 7 x 5 against 6 x 4.
