Jeff Turnbull.

INTRODUCTION

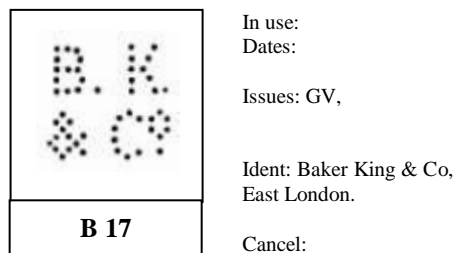

It is now many years since the first listing of the Perfins of South Africa & Provinces was produced by the Perfins Club of America (in their World Perfin Catalogue).

And it must be noted that 90% of this update is there original work.

During these intervening years there has been new information which has come to light, and although I have used the original perfin catalogue for some years I have always thought that it could be improved upon.

So I have decided to make up my own version of the catalogue and produce it with an alphabetical numbering system for the different dies, This catalogue (**Section Two**) deals only with the post 1910 **Union & Republic of South Africa** perfin stamps as in the map above (**In Green**). The four South African Provinces pre 1910 are dealt with in Section one of the catalogue. There is also user information alongside the Perfin image. A single letter "M" after the die number indicates a multi headed die. A small case "m" indicates a monogram die.

A Typical example is shown here: -

A Typical entry will be as follows: -

- In use:** Date range based on known dates.
- Dates:** Earliest and latest known dates from Documents or Cancellations.
- Issues:** Different Reigns & Issues are used
QVic, EDVII, GV, GVI,
- Ident:** Company Name & address identified by Document or Cachet Cancellation.

Suspected Ident: Ø This symbol indicates a suspected identity.

NOTE:- Fifteen South Africa perfin dies are also recorded on the perfin stamps of Great Britain Reference is made to five (5) of these Union perfin dies on the following website: -

<https://www.angelfire.com/pr/perfinsoc/surveys/000601.pdf>

**Any and all new information will be gratefully received,
and will be given due acknowledgement in the catalogue**

Note: -

The die **O 18 "OS"** is a recently discovered die, and was provided by Bas Payne U.K. There is some doubt amongst collectors as to it being genuine, as there is no history to sustain such a die. So it is left to the collector to decide.

CANCELLED 1

Large "CANCELLED"
Perfin covers several stamps,

Found with 1913-14 cancellations, on EDVII provincial postage stamps, Union commemoratives, and GV kings head postage stamps. Hundreds known. (No mint examples known.)

All denominations from 1d to £1 (no ½d stamps yet seen!) larger denominations just as common as low denominations (apart from £1, which is scarce).

Narrow date range: most between 13 November 1913 and 28 February 1914, but two outliers in September 1914.

Wide range of smaller and larger post offices; parcel office cancellations fairly common.

Clear from microscope examination that they were cancelled before they were perfinned; probably all by same machine, probably perfinned on forms in bundles – a few with retained discs, and would explain placement not really in relation to stamps. ? Audit followed by destruction; one leakage

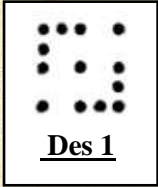

suggested explanations include use on Telegram forms.
Use to pay customs duty on foreign parcels seems more likely.

Any information or suggestions welcomed!
Especially on piece!! bas.payne@gmail.com

Do not confuse with earlier different CANCELLED perfin on Natal legal documents – letters different number of holes, e.g. E is 7 x 5 against 6 x 4.
