PERFINS

Oil Rivers Protectorate

WARNING NOTE

Over the last few years since this catalogue was produced there are other websites in the Perfin world which have sprung up on the internet, they have copied a lot of this information.

Not only have these new websites copied their information from the Perfin Society website, but they state that it is their own work.

I would not recommend using them, as their information in lots of cases is incorrect and out of date, also the images that they portray are not true to scale.

One thing that you can rest assured about is the fact that the Perfin Society website is updated every few months to cover any new information that has been reported.

It is a great pity that there are such unscrupulous people in the stamp world, but unfortunately this is a fact of life.

My sincere thanks go to the following collectors who willingly supplied images and information for these pages to be published for the benefit of all collectors.

Mr. P Antheaume
 Mr. Bill Barclay
 Mr. William Hall
 Mr. Stephen Steere

Sadly I must also say that there were other prominent collectors who failed to respond to my requests.

**Any and all new information will be gratefully received,
 and will be given due acknowledgement in the catalogue**

OIL RIVERS PROTECTORATE

As depicted on the page above the only known perfin stamps to emanate from the Oil Rivers were British stamps which had been used there by the Missionaries, the stamps would have had the perfin of the Church Missionary Society.

NOTE: - More detailed information is available if required.

Other British stamps can be found with Paquet Boat cancels emanating from the West African coastal sea route from South Africa. These have the perfin "U^N/C^O" of the Union Steamship Co Ltd. Mail picked up from Various ports of call en-route would have these Shipping Company perfin stamps affixed, and they would be cancelled at the next port of call, some examples are shown here.

OIL RIVERS PROTECTORATE

From an interest point of view I am including this page of "**Fake**" overprints. They are easily recognized as fakes with the overprint being on top of the cancel or of the wrong dimensions.

Below are two examples to give the collector an image of what to look out for.

No Genuine "Oil Rivers" overprinted perfins have so far been recorded.

UN
CO

Salt River is a mainly industrial suburb of Cape Town located near Table Bay to the east of the city. It is named after a river of the same name, this being a continuation of the Black River. The name Salt River is a corruption of the Dutch for sweet or fresh river. Salt River is now served by a railway station of the same name

This origin information is contained in the contents of the letter

After Sierra Leone became a Crown Colony in January 1808 the Military presence there consisted only of the Royal Africa Corps, which was composed of almost entirely white troops. Because of the climatic conditions the mortality rate was severe and this led to their replacement by a detachment of the West Indian Regiment, which came from Barbados in 1812, and which used Bruce Island ● as a recruiting depot.

By May 1819 there were a total of five companies of the Second West Indian Regiment all sent from Jamaica to Garrison Sierra Leone and the Isles of Los and the Gambia.
