

**A CHECKLIST OF PERFINS ON
THE UNITED STATES PARCEL POST STAMPS (Q1-Q12)**

compiled by
Robert Sperring (#804)
2734 Quaker Bridge Road
Trenton, NJ 08619

The United States Parcel Post Series (Scott Q1-Q12) is one of the most interesting series of stamps ever issued. But they were not one of the most popular series and after a short try at restricting their use to parcel post packages, the USPS gave in and permitted their use as prepayment for any postal service. In a sense they were the 1912 version of the "postal people" series of 1973. Both series picture the people and equipment that make the mail system work.

There are approximately 400 patterns listed here which are known to have been used on the parcel post series. The lower denominations were the most widely used. The 50¢, 75¢, and \$1 values of the series show up but rarely.

Members who have Perfins on the parcel post series which are not listed here are urged to contact Mr. Sperring at the address given above. A supplement to this list will be issued when it is warranted.
