

# PERFINS ON THE U.S. OFFSET PRINTING ISSUE

Fifth Installment by Dr. David Bennett

This article on Perrins on the U. S. offset printing issue (Scott #525 through #530) began in the May 1975 issue of the Perfins Bulletin. Subsequent installments have appeared in the July-August and November-December 1975 issues and in the February 1976 issue. In this Fifth Installment, there is a change in format (by the editor) to conserve space and present what should be a more easily readable listing. PC = precancel.
