

The Perfins Club Library List

A note from the Librarian

The Perfins Club Library contains what I believe to be the largest collection of Perfins literature in the world. And it is all available for loan to any member of the Perfins Club who agrees to the rules under which the Library operates.

The rules are few in number, but they are important.

- *Material may be borrowed only by members in good standing.*
- *Borrowers must pay all postage charge. The Librarian will pay the postage on shipments to the borrower; the borrower must include that amount of postage in the package when returning the material. Library material may be mailed at the SPECIAL LIBRARY RATE--currently 9¢ for the first pound and 4¢ for each additional pound--but all material mailed at this rate must be addressed to THE PERFINS CLUB LIBRARY, Box 82, Grandview, MO 64030, and clearly marked SPECIAL LIBRARY RATE on the outside of the package.*
- *Material may be borrowed for up to 30 days; returns must be made promptly. Please do not keep material any longer than necessary. There is a waiting list for much of the material and other members will appreciate your prompt return of material.*
- *Members outside the USA (other than those in Canada) may borrow Library material only if they agree to pay airmail postage both ways. Second class airmail can usually be used, which is some savings. Canadian members may borrow material on the same basis as US members, but it sometimes takes longer for material to travel to and from Canada and the rates are substantially higher.*
- *All requests to borrow material should be sent to the PERFINS CLUB LIBRARY, Box 82, Grandview, MO 64030. Requests must include the code numbers of the material desired.*

Here are some notes which may help you make better use of this List.

- A LIBRARY CODE NUMBER has been assigned to each volume in the Library. Please use this number when requesting material; it is not necessary to give titles, but the code number is essential.
- ALL REQUESTS will be filled as promptly as possible, but it is not always possible to ship all material immediately. You will not be notified if the material you request is out on loan, but your name will be placed on a waiting list and the material will be mailed as soon as it becomes available.
- CLIP FILES are filled with notes and clippings on a specific topic. For various reasons, these bits of information cannot be listed individually, so the subject file is sometimes a good source for information.
- SOME CHANGES have been made in this list which make all previous lists worthless. Some code numbers have been changed and some items have been dropped from the listing. Please do not refer to previous lists when asking for Library material. It will only serve to confuse me!
- PROTECTING LIBRARY MATERIAL while it is in your possession is very important. Some of the material in the library is almost impossible to replace. Please handle the material carefully and please pack it securely for the return trip.
- CORRESPONDENCE WITH THE LIBRARIAN is always invited. I am here to help you in any way I can and the material on file is here for you to use. If you wish, you can send me a list of material you would like to see over a period of time and I'll make periodic shipments to you. Just let me know how I can help you.

And finally, a couple of other comments....

Donations are always welcome. If you have material that is not in the Library--and if you are willing to share it with us--please let me know. Your help will be appreciated by all of us.

And if you know of Perfins literature that should be in the Library but is not listed here, let me know. If it is available, I will try to get it.

I hope you will use this list as a key to a broader understanding of Perfins and Perfins philately. Remember that I always stand ready to help in any possible way.

Foreign Worksheets

The foreign Perfins worksheet program is under the direction of our foreign catalog chairman. Copies of the worksheets are maintained in the Library so members can review them. Members who have information not on the sheets--new patterns, identifications, or corrections--are asked to notify the individual(s) whose name(s) appear on the worksheets. These worksheets are not catalogs and the information on them is tentative.

The Perfins Bulletin

Thanks to generous donations from a number of members, we now have an almost complete set of Perfins and The Perfins Bulletin. A few issues are missing and we still need some catalog pages that were sent out with issues in the late 1950s. We are also building duplicate sets of the Bulletin for the American Philatelic Research Library and for SEPS in England. The copies in the Perfins Club Library are available for loan to any member, but we ask that special precautions be taken to safeguard these issues.
