

SECURITY ENDORSEMENT & PERFIN SOCIETY OF G.B.
(Affiliated to the B.P.A.)

NEWS-SHEET

No. 66 March 1965

Subscription 10/- per annum.

PRESIDENT : C.Jennings
SEC/EDITOR : R.Bowman
PACKET.SUP : W.West
CAT.EDITOR : B.Tomkins
LIBRARIAN : F.Summers

NEW MEMBERS

Again we are happy to report the enrolment of another new member and are pleased to welcome him into the Society.

78. Mr K.G. Rose

Mr Rose says that he is well stocked with the recent issues of Canada and is ready to trade or give them away if anyone is interested.

FOR SALE

Mr G Collison has the following magazines for disposal and any lot is available to the first reasonable offer. He is prepared to split No.4 if the quantity is too great.

1. The Philatelist. Feb. 1964 to Jan. 1965 (12 copies)
2. The American Philatelist. Nov. 1962 to Oct. 1963 (12 copies)
3. The Stamp Magazine. Jan. 1963 to Dec. 1963 (12 copies)
4. The Stamp Lover. Jan. 1949 to May 1956 (52 copies)

THE OFFICIALS CATALOGUE

We have received the following from Miss Thornton.

"Final Notes on the Worksheets

These end with the USA Territories and with Venezuela, Uruguay, and any other countries that may have been omitted.

Venezuela has used a lot of Official Perfins with the letters G.N but I will not ask Mr Bowman to type the whole list as a Worksheet for it is probable that few members would return it. Instead, I will ask anyone who may be interested in these perfins, or who may have any information about them to write to me.

I would like to thank all those members who have so kindly returned their Worksheets, and all those who have given so much assistance in various ways.

The Section on Europe will follow that on Great Britain".

The European section will not appear for another couple of months so there is still time to get off any additional information to Miss Thornton or return any other Worksheets.

FULL NAMES By Miss M.E. Thornton.

As many people are interested in perfins with Full Names, it might be useful to record some new ones that I have found.

LETTS/LONDON	2H	5,7,6,6,9/5,8,11,9,8,11	4mm.
		My example is on a 1d Plate No 129	
LEVER/B	2H	7,10,9,10,11/14	5/5mm.
		On a 1d lilac, with fiscal, cancel.	
KIRBY/&Co Type III	2H	10,5,12,13,7/13,8,6	5/5,5,3mm.
		On a 1d K.E.VII - postmark - Liverpool, 04.	
ROW	H	11,8,14	5mm.
		On a 1d K.G.V.	
SMEE	D	10,15,10,10	5mm. On ½d K.E.VII.
SWIFT	H	9,13,5,8,7	5mm.
		On a ½d K.E.VII with Liverpool postmark.	
TUCKE/BROS	2H	7,11,8,11,10/14,12,10,11	4mm.
		On a 1d Plate No. 182.	

EDITORIAL JOTTINGS

We recently received a request from Stamp Collecting for the names and addresses of all our members in this country. It seems that they are carrying out some sort of survey into the strength of stamp collecting in the British Isles, and that they intend to send all Society members a questionnaire. It is not clear from their letter what they hope to find out, however, it is assumed that the survey will be of benefit to the hobby and we hope all members will co-operate.

Mr Carr has asked us to remind you that there is still plenty of time to send in your bids for the auction. There are many lots to choose from but do not forget to send alternative bids to avoid disappointment.

THIS MONTH'S CONTENTS

Two pages of general interest.
 Pages 13 & 14 of the Officials Catalogue.
 Council Listing - 8.7 to 8.15 (three pages)
 Identities Catalogue - T1, T2, T3, & U (four pages). These pages replace previously issued undated ones.

-----	-------------	---

Have there been two HM/SO dies? Miss Thornton has an example of the perfin on a 2½d blue K.G.VI stamp which has a postmark dated 31 MCH 1944 - that is, one month after the HM/SO die came into use. In this particular example the holes are slightly larger than are seen in all her other examples. The lowest hole in the centre of the M is opposite the second holes of the outside strokes of the letter. The overall measurements of the complete die, taken from the centre of the holes, is a little wider. The perfin "looks different". Could this have been some kind of provisional die?

8.7 HASTINGS (CB) SUSSEX

Hastings was not a Roman settlement but in the reign of Aethelstan (928) it was important enough to have a mint.

The town derives its name from the fact that it was the Haestingas tribe (HAESTA'S PEOPLE) who dwelt in the area.

It received its Charter of Incorporation on 15th February 1588 and today is a very popular seaside resort.

Perfins:	(i)	HC	H	9,7	(6½)
	(ii)	HC	H	10,7	(5½)
	(iii)	HC	H	10,7	(4½)

It has not been possible to confirm the use of dies (i) & (ii) but it is known that perfiins have been employed since at least 1912.

Die (iii) is currently supplied by Waterlow & Sons but it is identical with perfins supplied by Slopers to other Councils.

8.8 HAYES & HARLINGTON (UDC) MIDDLESEX

The history of Hayes goes back more than 1000 years when the Manor of Hayes was first referred to in a will of a priest named Warherelus. In the Domesday Book was noted as HESA - hedge - but has also been known at different times as HAYSE, HAYS, HESE, HEESE.

The earliest reference to Harlington is one dating from the reign of Edward the Confessor when a Saxon named Wigot held the Manor of Harlington.

Hayes was created an Urban District in 1904 and subsequently took in Harlington in 1932.

Perfins:	(i)	H&H/UDC	2H	10,12,10/8,9,7	(4½)
	(ii)	HH	H	10,10	(4½)

Die (i) is not confirmed but is believed to have been used by this Council.

Die (ii) was supplied by Slopers in denominations of ½d, 2d, 2½d, 3d, 4½d, 6d, & 1/-.

8.9 HAVANT & WATERLOO (UDC) HAMPSH12PE

A Roman villa found at Langstcne gives evidence of early settlement in the district, but the earliest reference is to HAVEHUNTE in the Domesday Book.

Much of medieval Havant was burned down in 1760 but the 12th century church of St. Faith still survives.

Many great documents were written on Havant Parchment until it ceased to be made in 1936.

Perfin:	H&W/UDC	2H	10,12,12/8,9,7	(4½)
---------	---------	----	----------------	------

Perfins were first adopted i_Z 1952 Ubut are now only used by departments located away from the Town Hall. They are supplied by Slopers.

8.10 HEMEL HEMPSTEAD (B) HERTFORDSHIRE

Pre-Roman, Roman and Anglo Saxon antiquities found in the district indicate that the town has been in existence a long time, although its early history is obscure.

In the Domesday Book it is referred to as, HENAMMESTEDE (High - Village - Station : HEAN-HAM-STEDE) and as HAMELAMSTEDE (Thrifty - Village - Station : HEAMOL-HAM-STEDE).

Hemel Hempstead was granted a Charter of Incorporation in 1898 although the earliest charter in the town's possession dates from 1539.

The District was designated for expansion under the New Towns Act 1345, and a year later the Development Corporation was created.

Perfins:	(i)	HH/DC	2H	10,10/9,7	(4½)
	(ii)	C/NT	2H	7/11,6	(4½)

Die (i) was used by the Development Corporation from 1950 to 31st March 1962. Die (ii) has been used by the Hemel Hempstead Executive of the Commission for the New Towns since 1st April 1962. The Borough Council has never used perfins.

8.11 HENDON (B) Middlesex

Hendon is probably most famed for the part it played in the early days of flying. The airfield there was bought by Claude Graham White in 1910 and the London Flying Club was founded.

In 1911 the first United Kingdom airmail service was started from the airfield, but in 1923 it was taken over by the Air Ministry for military use and was finally closed to flying in 1957.

Perfin:	H.C	H	11,8	(5½)
---------	-----	---	------	------

Perfins have been produced in the Borough Treasurer's Department for over 30 years on a four die machine of unknown make.

8.12 HEREFORD (B) HEREFORDSHIRE

In addition to being a borough Hereford is a city and county town. It was founded after the crossing of the Severn by the West Saxons in the 7th century as a settlement near the Welsh March.

Incorporation dates from 1189 when Richard 1 sold the town to the citizens at a fee farm rent.

Hereford was important enough in 1086 to be the site of a provincial mint.

Perfin:	HT/C	2H	10,6/7	(4½)
---------	------	----	--------	------

Nothing is known about this authority's perfins

8.13 HESTON & ISLEWORTH (B) MIDDLESEX

Heston was originally a Saxon settlement and although not mentioned in the Domesday Survey, it formed part of the Manor of Isleworth at that time.

The first authentic reference to Isleworth is in the Domesday Book (1086) when it was known as the Manor of GISTELESWORDE.

In 1875, Heston, Isleworth, and Hounslow were joined together as an Urban Sanitary District, later being raised to the status of Urban District in 1895. It's Charter of Incorporation was granted in 1932.

Perfins: (i) H&I/UDC
 (ii) H&I/BC 2H 10,12,4/11,7 (4½)
 (iii) HI/C 2H 10,4/7 (4½)

Die (i) was in use prior to November 1932 but I have no other details of holes etc.

From November 1932 to approximately 1946 die (ii) was used and became replaced by Die (iii).

Stamps have always been supplied by Slopers.

8.14 HEYWOOD (B) LANCASHIRE

The name Heywood is derived from the Anglo Saxon word HAYE meaning a hedge or fence and, of course, a wood, and being a Lancashire town its history is mainly related to that of the cotton industry.

Heywood received its Charter of Incorporation in 1881.

Perfin: HC H 10,7 (4½)

The exact date when perfins were first used is not known but it is certainly prior to 1940.

Stamps are currently supplied by Slopers in denominations of 2½d, 3d, 4½d, 6d.

8.15 HINKLEY (UDC) LEICESTERSHIRE

The Urban District which has a population of 41,000 was established in 1936, and comprises the ancient market town of Hinkley and the townships of Burbage, Barwell, Earl Shilton, and Stoke Golding.

The two principle products manufactured in the district are hosiery and boots and shoes.

Perfin: HU/DC 2H 10,8/9,7 (4½)

Perfins were first introduced sometime in 1946 and have been supplied by Slopers since that date.
