LONDON MEETING

Our next meeting has been arranged for 29th April and is scheduled to start at 2p.m. The venue is the B.P.A. Headquarters in the Strand. These offices are situated immediately opposite Charing Cross Main Line railway station so are easy to reach by the normal public transport facilities.

We hope that all members within a reasonable distance of London will find the time to look-in even if only for a short period.

Only one person has made any comments on what he would like to see and hear at the meeting, and that was Basil Tomkins who would like to hear what other members collect and how they set about it.

For example, do they limit themselves to particular types of perfin, subjects such as Railways, or particular issues of stamps; or is their collection unlimited? What method of mounting and arrangement do they use etc.

Perhaps members who propose to come along will bring some material which will illustrate these points. We are sure that everyone would like to learn how the other person has resolved some of the problems with mounting and displaying.

CHRIS CARR'S CHAT

EXCHANGE PACKET

Due to pressure of other business John Nelson has asked Brian Birch to take on the task of getting the exchange organised. This he has agreed to do and has suggested that we publish the results of the recent survey amongst members. The response was as follows,

Completed forms returned	33
Persons wishing to see G.B. perfins	32
Persons wishing to see firms underprints	23
Person wishing to see overprinted receipts	13
Persons wishing to see foreign & commemorative perfins	15

Particular interests noted (not in any particular order), Whole World (7), Australia, World Officials, Egypt, Switzerland, Germany, France, Ireland, Hong Kong, Canada, India, Scandinavia, Russia.

Persons wishing to sell G.B. perfins	20
Persons wishing to sell other perfins	10

Two members also expressed a desire to sell non-perfin material, and this may be reasonable providing the non-perfin material did not exceed, say 20~, of the total packet.

Brian Birch would welcome comments on this from other members and will be pleased to receive any forms that have not already been returned.

WANTED

Mr Kenneth D. Aws 571, South Griggs Street, St. Paul, Minnesota 55116, U.S.A., is interested in souvenir sheets containing reproductions of stamps, such as those available at past Stampex shows. If anyone has such items to offer would they please write to Ken direct.

ILLUSTRATED CATALOGUE

It seems fairly certain that this project will get under way in the U.S.A. and your Society has agreed to co-operate in any way that we are able. Details have not been finalised but we are proposing that Basil Tomkins should be our 'link-man' and will co-ordinate the efforts this side of the Atlantic.

Dr Tilles will produce work sheets of all perfin types all ready known to him and these will be distributed by our Society to members in the U.K.(and Europe?). Anyone with perfins not all ready on the worksheets will be asked to send them on loan to Basil for photographing.

Because of the cost of producing illustrated worksheejys, it would be preferable if they went only to those members who are willing and able to co-operate. Would such members please write to Basil and let him know whether they can co-operate?

At the same time as the above Basil will be revising our own Identities Catalogue, The 'A's' go out with this issue, so continue sending in new identities.

THIS MONTH'S CONTENTS

- Pages 139 & 140 of the Officials Catalogue - 2 sheets.
- Identities Catalogue, pages A1, A2, A3, A4, A5- 5 sheets.

7.1. CANADA

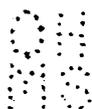

Since the Official Perfins of Canada have been so well documented elsewhere, particularly the O.H.M.S, type, it is proposed to give the briefest details only in this section for the sake of completeness. Readers wishing for more specialised details should consult the two handbooks noted below.

Stamps were first perforated O.H.M.S. (Die 1) in 1923 for use by the offices of the Assistant General Receiver and was continued until 1935 when the Bank of Canada took over these offices.

Later, in 1939, The Treasury Board ordered that perfins be introduced for use by Government Departments, and the Post Office was authorised to attend to the perforating and distribution of stamps. The date set for the introduction of Official Perfins was let July 1939.

A new machine was ordered containing Die 11 and this was put into use towards the end of September, but in the mean time the Die 1 machine was borrowed and stamps perforated on it distributed as required.
