MEMBERS' ACTIVITIES

David Scott tells us that since offering to give talks on perfins at local society meetings he has received two 'bookings', on 29th September at Coventry P. S., and October 27th at Streetly P. S.

He also reports that he won the South Birmingham Philatelic Society Cup with his first attempt at exhibiting perfins. His display consisted of six sheets showing perfins of the railway companies which formed the L.N.E.R. in 1923, and examples of LN/E and EN/E perfins.

GREAT SOUTHERN & WESTERN RAILWAY

Member Miss Norah Wright reports the discovery of a Sloper manufactured perforating machine used by this Company. It originally came from the old Broadstone Station in Dublin and is now in the possession of a keen Irish postal history collector.

Judging by the sample perforations in our possession it seems that the machine is in perfect working order and has all pins intact. The machine perforates two stamps at a time and produces perfins similar to Cat. No. 487.1 (Die 2 in the Railways Catalogue) GS/WR 10,10/15,11 4½mm but is different in the vertical spacing between letters, the overall height being nearly 13mm(½") as opposed to the 10½mm of Cat No. 487.1.

There are other minor differences, as indeed there are between the two dies on the 'new' machine. Since these dies have not yet been reported on stamps one wonders whether the machine was ever put into operation.

DONATIONS

Members Derek Pocock and Frank Horwood have both donated perfins to be sold on behalf of the Society and these will appear in a future sales packet.

0630 Mounting perfins
Rucklidge, J.M.

SEPS Bull., Jan./Feb. 1980, (185), 2-3

The problem of mounting and displaying perfins has no clear-cut solution and depends on the collector's taste and the extent of his collection. As an inexpensive start, 5" x 3" filing cards can be used to hold up to 2 perfins plus the required written data. Although they can be contained in the appropriate metal files, a more appealing method of mounting is to have 3 cards per A4 page, held in place by diagonal corner cuts in the manner of postcard albums.

PERFINS AUCTION No. 2 (1981)

This, the second of the four auctions scheduled for 1981, completely exhausts the auctioneers stock of lots to hand. Will members therefore dip into those spares and unwanted lots and pop them into the post at the earliest opportunity?

As Auction No. 1 (1981) has not closed at the date of writing, it is too early to give results, but there is a steady flow of bids with much interest in covers and overprinted receipts.

There are 126 lots in this sale with hopefully something to suit all tastes. Of particular note are some nice high values and some scarce literature.

Closing date for bids is Friday 22nd May 1981 and overseas members are advised to bid by airmail.

Please send all bids, on the form provided to:
