EDITORIAL

This is the last of this series of experimental issues. In this issue pages 1 and 2 have been reproduced by photocopier whilst the rest of the issue is reproduced by stencil as previously. The advantage of this method is that we can have a 'pictorial' front page and an illustrated article on page 2 while retaining the A4 size and keeping costs down. The last issue was reduced to A5 (illustrations full size) and any members who disliked the small size type should compare pages 2 and 3 of that issue which were produced with different size typewriters.

The final format for future Bulletins will be decided at the London Meeting (details elsewhere in this issue) so come and make your voice heard, but if you cannot come write to me and I will speak for you.

* * * * *

THE '22/CSC' PERFIN

by Tony Edwards

This perfin is listed in the 'Catalogue of GB Identified Perfins' so belonging to both Cookson & Co. and the Civil Service Commission. It is also listed in Jennings book as belonging to the Civil Service Commission. However enquiries of a number of years have failed to find any evidence of the latter identity. Inspection of a large number of examples shows that it was in use from the 1870's to the second decade of the twentieth century. The earliest usage being on SG 43 and the latest on SG 351/61. Inspection of these perfins identified three dies (illustrated below). Dies I and II were in use concurrently from the earliest usage until about 1910 when Die III came into use replacing the earlier dies almost immediately. Another interesting fact noted is that Dies I and II are almost always upright, but examples of Die III are common inverted, and reversed, Any further information about this perfin would be welcome.

TYPE I

TYPE II

TYPE III

My interest in perfins has started recently (less than a year ago; so I am still in the specialization stage. At present I try to keep the perfins of the United States, Canada and, of course, Great Britain.

Two of my current projects involve the perfins of Hertfordshire and those of main Department Store Chains. I have so far identified at least 13 private perfin users within Hertfordshire and have written to many of them for information relating to their business and period of use. My intention is to eventually write a small booklet on this subject. I would be interested to receive or buy any identified perfins, with Hertfordshire postmarks to help my researches.

With Department Store Chains I am currently concentrating, on the perfins of W.H. Smith & Sons, Harrods Limited, Debenhams and Selfridges Limited. I hope to identify the period of perfin use, types of stamp, areas of use and die varieties. Again I would be interested to buy or receive any perfins from these stores to help complete the picture.

MORE POLISH PERFINS

The "Polish Philatelists Association in United Kingdom" (see SEPS BULLTETIN NO. 205 page 6i have produced more perfin designs. The Polish Institute & General Sikorski Museum Limited, used the perfin PR/CF (Code 8,10/7,7: 4½) in conjunction with the Polish Regimental Colours Foundation Annual Reunion this year. "The Association has also produced another version of the Pope John II perfin for use in conjunction with a stamp exhibition on 15/16th October 1983 at the Polish White Eagle Club, London SW17. This version is PJ II (curved) with the code 6,8,12:5. Examples of these and the earlier "Polish" perfins can be obtained from the address on P8 of issue 205.

Do you have any perfins from Beyrout? No, I don't mean Lebanon.

During the latter part of the last century, and the early part of this one, Great Britain operated post offices in various parts of the Turkish empire. One of these was in Beyrout (Beirut), which opened in 1873 and closed in 1913- Stamps used in these offices were Great Britain stamps, and can be identified only by the cancel. The Beyrout ones are listed in Gibbons under British Levant, #'s z1 to z67.

Now to perfins. Some time back I acquired a Great Britain Edward VII, 1d red stamp, with perfin TC/&S, with one of these Beyrout cancels. The stamp is Gibbons z59, and cancel is a circular date stamp, style 20. Unfortunately the lower part of the cancel is off the stamp, so the year and day of usage are not known, but the month was November. The perfin, as mentioned, is TC/&S, used by Thomas Cook & Son, from one of their many worldwide offices. It is similar to the McKee-Tomkins # T110.3, and is as the van Lint one shown on page 104, row 7, column 2.

This stamp came out of the Perfins Club sales circuit, and cost me 8c (US). So, it shows even perfin collectors should look a little further than the holes.

HELP WANTED

As you know the Bulletin is now produced by a team effort from a number of members. Unfortunately two members of our team find they must now drop out so we are urgently seeking replacements. We require a typist who is prepared to type up about 200 labels every two months and to keep an up to date membership list. Also required is a typist to type up the eight or so Bulletin pages and the Auction Lists each two month period. (The Catalogue and Abstract pages are produced elsewhere).

If anyone is prepared to volunteer for either (or both)? of these tasks which are essential to the future production of the Bulletin please contact the Secretary as soon as possible.

SOCIETY NEWS

Secretary's Report

The year just ended sees the Society in a very flourishing condition. Membership is at an all time high of 194 at 31st August, an increase of 19 over the year. As 6 new members join us on 1st September we are "200 not out". This is no doubt due at least in part to the publicity we have received in the philatelic press from, for example, the re-publication of John Nelson's book. We have sold well over a hundred copies.

The provincial meetings have continued with that at Cambridge where we were the guests of Derrick Muggleton. No more are scheduled at present and it is to be hoped that they do not fizzle out. If you can arrange one please do not let Tony Edwards know in good time and he will advertise it in the bulletin.

I am sure that all members would like us to thank on their behalf the officers and helpers who make the Society a "goer".

Tony Edwards and his helpers -- P. North (typing stencils), Keith Moore (duplicating), John Luft (despatch) and Marion Cox (typing labels) for the bulletin.

John Luft (again) for the Sales Packets.
Peter Day for the auction.
Brian Birch for the library and abstracts.

Without their very considerable labours the Society would not even exist.

LONDON MEETING

*	The annual London Meeting is on Saturday 19th November	*
*		*
*	Place: 314 Vauxhall Bridge Road	*
*		*
*	Time: 2 pm onwards	*

TREASURER'S REPORT

This year end sees the Society in a very healthy financial state - see accounts. This is, of course, mainly due to the (it is to be hoped) exceptional windfall of the commission on the sale of the holdings of Ron Bowman and Keith Rymer Young whose deaths were sad blows. The normal auctions have also gone well.

The sale of publications has also given us a boost; this is partly due to the re-print of John Nelson's book. We are grateful that he has agreed to this without financial reward.

The Sales Packet has been disappointing due to the loss of yet another packet. Clearly the Packet should be a useful source of income as well as a way of spreading material but in view of our unfortunate experiences we must consider its future carefully.

Non-recurring expenses include the Nelson re-print and the diplomas for the Ron Bowman Memorial. It has always been our policy to ignore stocks in hand. Consequently there should be a useful income from the Nelson book in the years to come without any off-setting expense (we still have 150 + copies in stock).

In view of the successful method of bulletin production we have disposed of the Society's duplicator.

Otherwise I think the accounts are self-explanatory but if any member has a query I will gladly answer them.

Finally

- (1) Subscriptions are not acknowledged (for economy reasons; except by the inclusion of membership card in the next bulletin.
- (2) Cheques can be made out to Stamps are not acceptable.
- (3) Foreign members should remit by either a sterling cheque or local currency notes. Cheques in local currency bear a considerable collection charge from British Banks.
- (4) British and European members can remit by GIRO (our account number is 62 723 8408). This is not available for the rest of the world.
- (5) Subscription is maintained at £3 for U.K. or overseas surface mail. £6 for air mail.

Please do send off your subscription NOW (if you have not already done so and if you wish to retain your membership. If you have not paid by December 31st you will be deemed to have lapsed and rejoining will entail payment of entrance fee £2 as well as the subscription.

LIST OF PERFIN DEALERS

It has been suggested by one of our members that we publish in the Bulletin a list of dealers who will sell perfins. I see no reason for us not to except that I only know of two! If any members know of any dealers who they can recommend I would be pleased to publish a list in the next edition of the Bulletin.

HANDBOOK OF DANISH PERFINS - A REVIEW

One of our members, Peter Engelbrecht, has produced a catalogue of Danish Perfins under the title "Handbook of Danish Perfins".

This fine publication is a must for anyone interested in this area of our hobby. The handbook is bi-lingual, Danish/English, and each perfin is illustrated in clear black on white. It is produced by a method similar to the last issue of our Bulletin, with half size text and full size illustrations. It contains 120 pages with some 700 of the users being identified. A copy is available in the SEPS Library and those who need a personal copy can have one direct from Peter for DKr 54 in Europe or US\$ 8 outside Europe.

The address is:- Peter Engelbrecht

* * * * *

ILLUSTRATED PERFIN LEAFLETS

John Coles (Philatelists) are producing a series of illustrated leaflets covering various themes of perfin collecting. Each one covers a particular theme, illustrating and identifying (if possible) all known examples. The leaflets are eight page A5 format with full size black on white illustrations. The first two in the series are now available covering "Design & Monogram Perfins" and "Shipping Perfins". They are available at 25p each plus postage from:-

John Coles (Philatelists)

S.E.P.S. AUCTION NO.4_(1983)

This, the fourth auction of the year, is later than anticipated and smaller than usual. However, what it lacks in quantity of lots, it more than compensates for in their quality.

Among the many fine lots on offer are several good selections of GB perfin dies, some with over 1000 different in each. There are some scarce single items, notably in the Officials, plenty of covers, fiscals, foreign etc., including a chance to acquire the McKee GB Perfin Catalogue which is the 'bible' of the hobby. In all there should be something for everyone, so let's have a record number of bidders this time.

The Auctioneer is now seeking urgently more material in order to satisfy the increasing demand from a growing number of faithful bidders. Any lots, no matter how large or small will be gratefully received. Please try to assist the Auctioneer, by sending clear descriptions and realistic reserves with all lots submitted -- it certainly helps to sell them better. Also enclose an S.A.E. if you require acknowledgement of receipt.

Closing date for the auction is 30th November and overseas bidders are advised to submit bids by airmail. Please address all bids to:

P.F. DAY

Abbreviations used in this auction:-

*	=	No. of defective stamps
cat.	=	catalogued
comp.	=	comprising
defins.	=	definitive stamps
difft.	=	different
PC	=	postcard
perf(s).	=	perforation (s)
pl.	=	plate number
pmk.	=	postmark
PPC	=	picture postcard
refn.	=	reference
