I found this copy of perfin pattern on a picture postcard which was used as an order acknowledgement by H.G. Hastings and Company. The perfin pattern "HGH" matches the company's name and the Atlanta, GA postmark matches the city of use entry in The Catalog of United States Perfins. The

catalog lists this perfin but does not provide a listing for the user.

A photocopy of the cover has been forwarded to John M. Randall, US Catalog Editor.
