When I first examined the illustrated cover (shown photographically cropped) it confirmed that the user of perfin design M242 - MSC - as Michigan State College. It was obviously a SASE sent to someone in Detroit, Michigan (see CDS) for a return mailing to the College's Register's office. On examining the perfinned postage use, I discovered that it was the commemorative issued february 12, 1955 for the "First of the Land-Grant colleges." These colleges were Michigan State College and Pennsylvania State University. Now, I am on the hunt for a Pennsylvania cover with their perfin U57 - U(O/F)P - on the same commemorative stamp.
