

SLOPERS ARROW MACHINE

•••••
••••• At a Meeting of the Postal History Society
• on 21st. November 1950, this card was cancelled
by a Sloper's perforating Arrow machine which
the G.P.O. Authorities had kindly allowed Mr.
H.C. Westley to exhibit at the meeting.

We have been shown the above card which was apparently given a strike of the patent cancelling machine produced by Sloper to cancel postcards in 1870. It seems that this machine was still in working condition in 1950. Does anyone know the history of this card or the whereabouts of this Machine?

Example of the official use of this machine.
