

Distinctive 'R' Shape

Bulletin 282 Pg.17.

From Arthur Smith.

In anticipation of the next worksheets to be sent from Roy for the New Illustrated Catalogue, I was looking at my 'R' perfins and the die 'RIP/H' stood out clearly. It is R286B in Tilles and R2867.01 in later catalogues and the 'R' is similar to the three illustrated. I expect many other examples will be found but as 'R' is the next perfin to be worked on, it is opportune to report this one. It is on KEVII 1d and 1½d stamps.

Bulletin No. 284 (Oct' 96) Pg. 6.
