
Spring Training is Here! Baseball Again Helps Banish the Winter Blahs!

Bob Szymanski (LM#145)

I have a very small collection of the 1939 US Baseball Commemorative and when I saw the Sports News talking about the beginning of Spring training, I thought to myself there must be a perfin article for the *Bulletin* there somewhere!

Although I have never considered myself a "topical" collector; after looking at some good sized collections of Parcel Post, 11¢ Polk, the 2¢ Black Hardings, and others, maybe I am!

Please bear with me as I list the various (US only) baseball-associated stamps that could be included in a baseball topical collection. If I've missed any please let me know. Likewise if you have any issues to add to this perfinned baseball topical collection list, I would love to know and will forward any additional information to the editor for a future update.

My collection consists of (14) issues on SC#855 --- C57, C176, C345, C413, G139, I61, J51, L78, N140, S4,

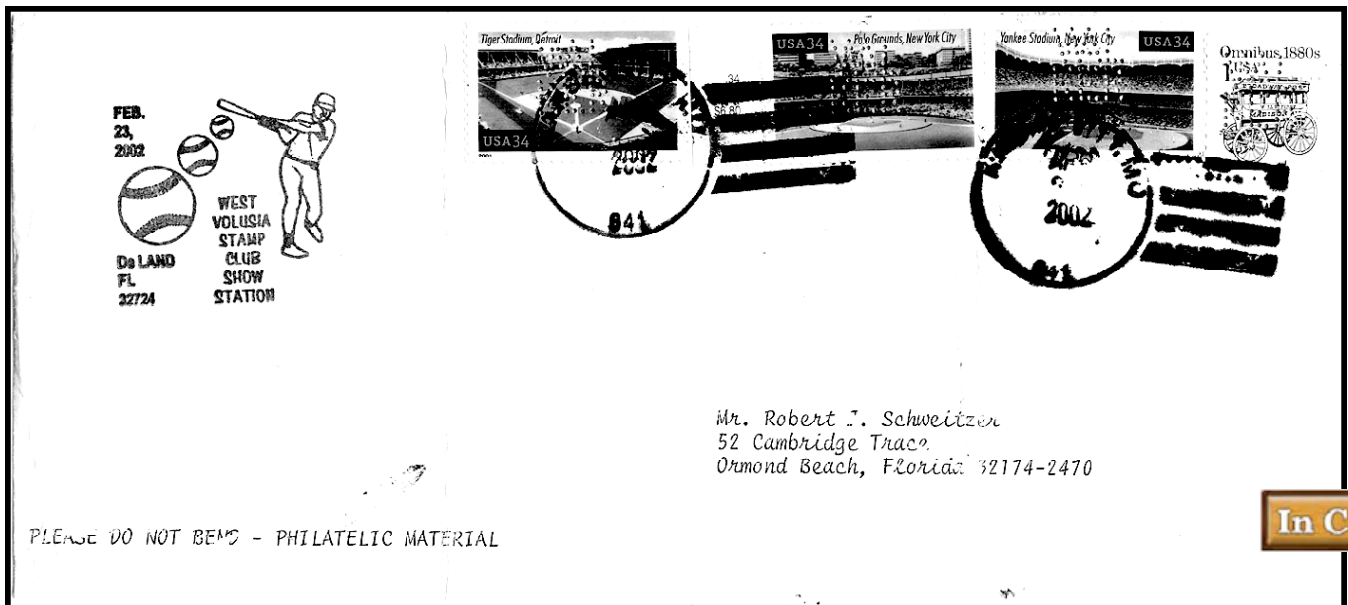

S120, S195-28, U54 & W7.1; SC#1381 has perfin I20.5; and SC#2016 has S191. Thus, through 1982 all of my collection copies are commercial use.

A dramatic change takes place starting in 1984. From this date on all are personal perfins: J3.5 of John Gooding is on SC#2097, and the same pattern while owned by Rev. John Griswold is found on SC#3518 & SC#3519. The W20.5 pattern of Floyd Walker is on SC#s 3408r, 3511, 3513 & 3514. This is understandable as the commercial use of perfins has faded and only several personal perforators remain to provide present and future issues for synoptic collectors.

Interestingly, the three W20.5 [WAL/KER] perfins [indicated with C in the above list] are all on one

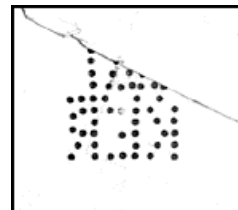

cover with Baseball related perfins. And there is a story behind this cover. As you can see from the scan, the cover was mailed by Myra Walker to Robert Schweitzer (both Perfin Club members) in 2002.

In the past, Bob had Floyd Walker's help producing philatelic covers promoting the West Volusia Stamp Club Show, with which Bob was active. Bob had written to Myra seeing if she would use Floyd's perforator to perfin some stamps for the next show. Myra called me to see if that was allowable and I suggested that it would be fine as long as the stamps perfined were in current use. Myra extended this courtesy to Bob. That was the end of the story - that is - until Bob sent me this cover, along with a few others, to purchase.

Imagine my surprise to see the cover above. After a cursory look, I flipped over the cover and was surprised to see a perfin coming through the back of the cover! Upon opening the envelope, I found that Myra had perfined the three ball park stamps right through the front of the envelope. I can see it now, Myra (I know that you are reading this) applied the four stamps to the cover that Bob provided and then thought that it would be nice to apply the perfin to these stamps as well. As the envelope was unsealed she was able to perforate the three ball park stamps but not the 1¢ Omnibus issue as it was right in the corner and the perforator wouldn't fit in the envelope. No problem, she took out the contents and

perforated the stamp right through the complete cover! Case closed - "Perry Mason" Szymanski!

This leads to one last question. Does anyone have a similarly perfined cover that has the perfin pattern through the front of, or through the whole of the envelope? Please let me know!
