

## ADDITIONS TO PERFORATED POSTAL STATIONERY

Rosemary Smith

Most of the following new information has come from The Postal Stationery Society. Many were provided by Alan Huggins, whose Catalogue of Postal Stationery has recently been published and I have seen it on sale at Stamp Fairs. At the present time it has not been possible to assign Perfin Society numbers to all the dies because I have not had sight of them. Where there is only one die with a particular series of letters, I can give the catalogue number. Melvyn Green and Jeff Turnbull have notified other items to me.

\*\*\*\*\*

In Bulletin 284/15 there was reference to a 'F.S' die on a P.P.S. Card. I put out a request for any further information about this die as my original information came from "The Cinderella Philatelist". Nothing else was reported and there is nothing in the 'F' section of the New Illustrated Catalogue, which could possibly be this die. Therefore this 'F.S' die and details need to be deleted from this research.
