

GB HIGH VALUES STUDY PAPER

KING EDWARD VII

1902 & 1911 £1 GREEN

Compiled by William Hall

Introduction

This study paper seeks to record all known surviving perfinned copies of the 1902 & 1911 King Edward VII £1 green.

It is both a record of the different perfin dies known on that stamp and of the individual copies for which scans have been recorded.

The £1 Green SG 266 was issued on 16th June 1902 printed by De La Rue & Co and was later printed by Harrison & Sons SG 320 and issued on 3rd September 1911.

The following pages shows copies of scans of the known stamps which I have compiled from copies sent to me by members (*many thanks to all members who have already helped contribute to this study*), my own collection, online auction sites and by searching the internet.

If any members can add examples to this study paper, I would be pleased to receive details, and ideally scans, of them. Please email me at w.hall13@ntlworld.com.

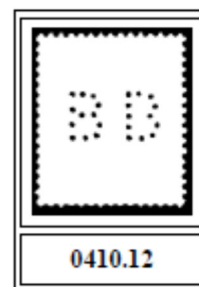

Master List

There are nine perfin dies found on this issue are:

Die	Gault Cat No.	User	Number of scans recorded
BB	B0410.12 In use: 1900-1915	Baring Brothers & Co Ltd 8 Bishopgate, London EC	6
