FURTHER NOTES ON HOSPITAL PERFINs

By K Rymer Young

There seems to be enough new material available now to justify a postscript to my article on hospital perfins.

Very soon after the first page of listings came out in the News Sheet I got very helpful replies from Mr Tomkins, Mr Summers and Mr Eades, for which many thanks. I had hoped that other members might be saving their replies until the article was completed but only Mr Coates has come in, and even 4d letters should have arrived by now.

I would like to record much valuable help from a non-member, Mr R.F.P. Glegg who was secretary of the Eastbourne Group HMC, but who has now unfortunately arrived at his retiring age.

Mr Tomkins and Mr Summers both drew my attention to the fact that official letters from the hospital groups use official envelopes currently marked CODE 26 or CODE 27 followed by a size number.

Turning to the actual identities we find,

- BR/HB Adding up information from both Mr Tomkins and Mr Summers this is definitely used by a hospital and may, I think, be safely noted as BIRMINGHAM REGION HOSPITAL BOARD.
- CH/33 Mr Eades reports this with Coulsdon, Surrey postmark which provides the necessary confirmation for CANE HILL.
- EB/HMC EAST BIRMINGHAM HMC (26), constituted November 1962. A reconstruction of the Birmingham (Sanatoria) Group. Recently found on current issue with Birmingham postmarks.
- HMC Mr Coates reports GUILDFORD as now using HMC without any G.
- HMC/6 Mr Summers reports a Yarmouth postmark and I have it with a Norfolk postmark.
- LG/MC Comes with Blackheath and Catford postmarks on code envelopes. Almost certainly LEWISHAM GROUP HMC, Group 4 of the South East Metropolitan Region.
- MW/HMC Not identified. Could be Mid-Wales, Mid-Wiltshire or Mid-Worcestershire. Not seen on Welsh Regionals as far as I know.
- NT/HMC A new identity from Mr Tomkins. NORTH TEES-SIDE HMC. Tees-Side (Newcastle 13), Cleveland (Newcastle 12) and Sedgfield Groups replaced by North Tees-Side HMC and South Tees-side HMC in March 1958.

The rare die - 12,11/10,8,11.

It was suggested in the Australian Stamp Monthly, 2nd Feb. 1948 that this was produced by the State authorities having Commonwealth stamps already perforated "OS", additionally perforated "NSW" on their machine after putting their own "OS" pins out of action.

There are only five stamps known :-

THE FIRST G/NSW OFFICIALS

8/11,10,13

12/10,8,11

The OS/NSW" dies were changed to G/NSW (Government) and the first dies used were actually adapted from two of the OS/NSW dies. The upper "S" was removed and one pin of the "O" was moved to form the "G" in each case. In the larger die there are variations in the position of the bar of the "G", which may be level, or sloping upwards or downwards.
