NEW MEMBERS

We are pleased to welcome the following new members into the Society,

Mr A.G. Moore

Mr D. Morgan

Mr P. West

ADDRESS CHANGES

Mr J Rowlands

Mr.J.Hadley has moved

Maj. J. Macpherson

CLOSED ALBUM

It is with sincere regret that we learned of the sudden death of member Frederick Clarke shortly before Christmas. His son wrote to us expressing gratitude for the enjoyment and interest his father derived from membership of the Society, and asked us to convey his thanks to officers and members.

The Secretary has replied on behalf of the Society offering our condolences.

We did not know Frederick but he was always active making returns of the worksheets and thus we shall miss him.

LAPSED MEMBERS

Since we have not received renewals from the following members they are being treated as lapsed,

Messrs. Allum, Bayanwala, Beatson, Blaser, Darling,
Gough, King, Shales, Sperring,
Yates, Mrs Kloss, and The Collectors Club.

Some of these are long-time members whom we are sorry to drop, but the financial situation dictates it.

FUTURE SUBSCRIPTION RATE

At the meeting in London it was agreed that the subscription must be raised next year to £2.00 (and £3.50 for airmail). Currently we are running at a considerable loss which obviously

cannot continue. Although we have a reserve (in Premium Bonds) we must preserve this so that we can finance such projects as the Railway Book. These should eventually make a useful profit for the Society but we have to pay for the printing, postage and so on before we get any return. We have already had to cash in 50 of our Premium Bonds (numbers 7QK 574601 - 50)

J.M. Rucklidge Hon. Treasurer.

WHOM TO PAY?

We should like to remind members that remittances are normally only sent to three officers as below, and we would ask you to bear this in mind to save delay and the additional expense incurred by sending to the wrong person.

- Treasurer Subscriptions
- Editor Remittances for publications (back catalogue pages, railway booklet etc)
- Packet Superintendent. . . . Remittances for stamps purchased from the packet.

INFORMATION WANTED

1. Mr M.R. Hewlett "The Hermitage", Village of Box, Corsham, Wilts, SN14 9DT would like to have details of any perfins or similar security stamps associated in any way with the following themes,

- 1. Esperanto
- 2. The Union Jack

2. Michael Rucklidge has the following query,
Block of four S.G. 350 perfined C.N./B 8,13/14 6mm.
This was on piece with Birmingham postmark. Trademark is a globe with a scroll across bearing the words "Worlds' Traders". Can anyone help?

3. Dr Reg Powell is King Edward VII study Circle Secretary of the Great Britain Philatelic Society as well as an ardent perfin collector and is soliciting help in the combined fields. The Study Circle has been investigating the plates of the K.E.VII ½d & 1d values for some years, and they need to see as many complete bottom marginal strips, and control corner pieces as can be made available. Reg would like to hear from anyone who can help in this connection both perfins and non perfins. He would, particularly be pleased to be able to allocate the few Official perfins to K.E.VII plate numbers in this way.

G.B PERFINS ILLUSTRATED CATALOGUE

Would members who have purchased a copy of this Catalogue from Dr Harvey Tilles, and who have perf ins not illustrated therein, please loan them to Basil Tomkins for photocopying?

Addenda pages containing all additions received will eventually be made available through Basil for anyone requiring them.

Harvey tells us that he mailed a futher supplement on 27th December 1976 completing all letters except C, H, S, W, Designs.

Copies of the Catalogue are available at \$60 (U.S.) from Harvey

Total unsold lots - 23

GROSS RECEIPTS £99.81
 COMMISSION 9.98
 NET PAID TO VENDORS . . . £89.83

At the time of going to press three cheques had not been cleared through my bank. If the following members have not received the cheques in payment of lots sold, would they let me know please? Messrs. Birch, Brown and Day.

Our next Auction, Spring 1977, will take place on 21st May and the Auction Catalogue will be published in our March/April bulletin. Please let me have your lots as soon as possible. Closing date for receipt of lots is Friday 19th March 1977.

Ted Francombe Hon. Auctioneer,

SOME PERFINS OF COLOMBIA

By Eric Harris

Colombian perfins would not appear to be particularly common and I have only found five types over the past ten years. I would be pleased to receive and collate any further information that S.E.P.S. members can supply.

Official Perfins

1. R de C Republic of Columbia on S.G. 366 the 2 peso value with cancellation dated 1931.
2. ANULA "Annuled" on S.G. 364, 50 centavos, postmarked July 1938. Gibbons gives a footnote after the 1937 set overprinted OFICIAL, S.G. 0 496/508 which says "The 5p & 10p 0507-8 usually had "ANULADO" punched through them before use.

Private Firms

3. B de C Bank of Colombia on S.G. 357, ½c and S.G. 361 5c, both inverted. Dates unknown.
4. B/AA Bank of ?? on S.G. 431, 5c. No date.
5. J.V.M. J.V. Mogollon, seen on cover (1933) from Cartagena branch of the firm to another branch in Barranquilla. Stamps on cover were S.G. 431, 5c and S.G. 438, 15c airmail. Also on S.G. 453, 8c - external postage rate.

N.B.

Additional information to Mr E. Harris

ARGENTINE INVERT OF 1901

By Mike Burrows

Charles Lanthrop Pack, the well-known philatelist, who died in the late 1930's, was very interested in the inverted centre errors of Argentina. It is to him that the present day perfin student is indebted. Several articles and notes by Pack on these issues S.G. 239b; 240b 241b; were first published in 1912 in various contemporary philatelic journals.

The stamp that is of interest to the perfin collector is the 20 pesos inverted centre S.G. 241b. The catalogue value quoted in Stanley Gibbons Overseas Part 1 (1973) is £250.

Only one sheet of this error is believed to have been printed. The number of impressions on a sheet is unknown to me. All known copies are perforated with portions of the word INUTILIZADO, as they were used for bulk payment in connection with newspapers.

In one of the articles - Stanley Gibbons Monthly Journal, January 31st 1912, volume XX, page 213 - a pair showing the error and part of the blanket 'perfin' "DO IN" is illustrated.

From examples of the perfin in my collection, on various issues, also the illustration mentioned, I have been able to

reconstruct the perfin, which looked something like this:

M U L Z A D D

Roughly translated - rendered useless - surely this must rank as another of philately's little ironic twists.

PIONEER AIR POST, BORK TO BRUCK

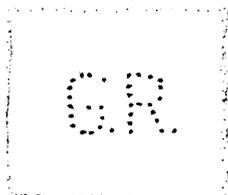

By Mike Burrows

Of all the early pioneer flights that made philatelic history, one of the most interesting to the perfin collector was the mail service carried out by Aviator Grade, who ran the Grade Aviation School at Bork, in Germany.

The first mail carrying flight, piloted by Pentz, in Grade's monoplane, commenced from Mars aerodrome, Bork to the postal station at Bruck, about 25 kilometres, on the 18th February 1912. These flights appear to have continued at regular intervals until 23rd June 1913.

For the flight of 26th February 1912 a special vignette was issued. Printed litho in violet, without any indication of value, on thick glossy paper, imperf. In the centre of this semi-official space was left for the ordinary adhesive to be affixed. This was indicated by the inscription "Platz Fur Freimarke".

On offer at the Marquess of Bute sale of Airmails on 25th March 1959, was an example of this early air post vignette used on cover to Hamburg with circular cachet. A 10 pf Germania was superimposed in position on the vignette and cancelled at Bruck on the day of issue. This item is illustrated on page 185 of 'The Philatelist' for March 1959. From this excellent reproduction it can be clearly seen that the 10 pf perfined as follows,

G.R. 15,17 7½m.

As only 90 flown covers are known from this flight, we may never know whether the perfin was performing its appointed task on an item of commercial mail, or if the stamp just happened to be on hand at that particular point in time and was used to pay the postage on a piece of souvenir mail.

RAILWAYS BOOKLET

Although not many booklets have been sold to date (we have yet to publicise it more widely) additions are already coming in.

The two items perhaps of most interest are,

- a. Confirmation of the B R die being used by the London, Brighton South Coast Railway by a non member. He has a receipt slip, issued by the Company, dated 7th September 1920, and having two ½d K.G.V. perfins affixed. These perfins are nicely tied to the Receipt with a circular rubber stamp of Oxted station.
- b. Great Western Railway Company. Member Mary Thornton has a post card perforated with Die ii showing this to have been used by the Great Western & Cornwall Railways. The post Card is dated 15th September 1886 and was issued from the Divisional Superintendent's Office, Plymouth.

Copies of the Railways Booklet are available to members at a price of £1 post free. The price to non members is £1.50 post free and not £1.30 as stated in our last issue. However, to save embarrassment, if any member has offered to obtain copies for colleagues at the lower figure, the Society will honour the agreement.

STOP PRESS

We have just learned of more membership changes.

We bid a welcome to two more new members,
Mr K.S. Goldsmith

Mr D. Williams

Mr R.J. Mann

Mr J.A. Dole has resigned and six other late payers have caused the very welcome gaps in the list of lapsed members on page 1.

STEAMSHIP COMPANIES

The first page of this listing completed by Mike Burrows is going out with this issue. We hope eventually to include a page illustrating all the dies noted but S.B.P.S. catalogue numbers will be used throughout.

All correspondence on shipping companies should go to Mike Burrows direct please. The address is on the Full Names Worksheet.

This issue's Contents

General Interest - pages 1, 2 & 6 - 3 sheets

Pages S1, S2, S3 & S4 of Identities Catalogue - 4 sheets.
Pages 33 & 34 of Perfins Abstracts -- 2 sheets.
Officials Worksheet - Stationery Office (2 sides) - 1 sheet
Full names Worksheet - Letter K(2 sides)-1 sheet

A.B.C. STEAMSHIP LINE

A B C
10,14,8
4½mm
Cat. No. 53.1

H. Newhouse & Co., Ltd.,
A.B.C. Wharf,
South Quay,
Yarmouth, Norfolk.

Henry Newhouse founded the A.B.C, line of steamers about 1892. Promoting and registering a company, the A.B.C. Steamship Line Limited in 1898. As a member of the Yarmouth Port & Haven Commission and an agent for Lloyd's he was involved in the salving of many vessels and cargoes on the Norfolk Coast. Besides building ships, under contract, for the Canadian Government, for mail service on the St. Lawrence, he was able to supply vessels for the fishing industry of Vancouver.

According to sailing bills of the early 1900's, a thrice-weekly service was running between the Norfolk port of Yarmouth and the very important Yorkshire port of Hull, using the steamers Yarmouth and Flamingo. This was reduced to a twice-weekly service by 1908, with the Eastern Counties on station.

In 1903, Henry organised a system of tugs and lighter on the local rivers. At about the same time he joined others in a venture to purchase Mousehold gravel pits at Norwich. Thereby providing his lighters with regular gravel and flint cargoes. He also pioneered a scheme for the benefit of local manufacturer's, whereby they were able to send their merchandise in bulk to Hull for distribution. Goods being available in Yorkshire and the surrounding areas the day after the order had-been received.

The demands of the British Government resulted in the vessels of Newhouse's associated companies being commandeered for war work in 1916. Even the steam and electric cranes, familiar sights on the South Quay at Yarmouth, went to Lagos, Nigeria.

With the departure of his four sons into the service of their country, Henry Newhouse decided to call it a day and retired.

On the 2nd June 1925, a message from the surgeon on board R.M.S. Euripides, a day out of Cape Town from Australia, was transmitted via Walfisch Bay - 'Regret Henry Newhouse just passed away'.

25. continued
types of genuine perfins and a list of all stamps on which they are known is included. Each type of forgery is dealt with in depth to enable them to be easily distinguished from the genuine perfins.
26. Other Government Official Perforations 206
Although the Board of Trade perfins are the best known official perfins, others exist which were used by bodies such as H.M. Stationery Office, Department of Scientific and Industrial Research, H.M. Office of Works, Public Trustee's Office, Crown Agents, Admiralty Transport Dept., Ministry of Munitions, National Factories and the Patent Office. Full details of the organisations concerned and the stamps on which their perfins are found are given. The C of A and NZ perfins of the High Commissioners for Australia and New Zealand are also covered.
27. Local Government and Semi-Official Perforations 214
Various local government bodies have used perfins. A list of all known cities, councils and boroughs together with various public services which have used perfins is given. The public services include electricity, gas and water boards, police, education health (but not hospital boards) -docks and waterways and transport.
28. Perforated Government Departmental Fiscals 218
In 1870, Sloper obtained permission from the Inland Revenue Department to perforate Foreign Bill and Inland Revenue Stamps. In about 1875 various Government Departments began to use perforating machines. There is however some doubt in many cases as to whether the perforation was carried out to protect the stamp from theft or merely as a cancellation to prevent its re-use.
29. Perforated Commercial Fiscals 225
Apart from the government departments mentioned above, several private firms made use of perfins on fiscal stamps although once again some of these will have been for cancelling purposes only. Twelve perfins are recorded as having been noted on fiscals and the stamps on which they are known are indicated.
30. Telegraph and Proof perforations 231
Although no record of permission being granted to perforate telegraph stamps can be traced, this practice appears to have existed from about 1876.

30. continued
Five perfins are listed and the issues on which they are found, indicated. From 1919 to the early 1920's high value stamps of the "seahorse" series were punched with a single hole in the form of a stubby cross before being used on telegraph forms to prevent their being removed for philatelic purposes. Miscellaneous holes and crosses have been punched through stamps used in proof booklets sent by the post Office to firms whose advertisements appeared in the booklets.
31. Hospital, Medical and Nursing Perforations 234
This field of perfin collecting is very wide, embracing not only Hospital Management Committees, Asylums and Hospitals but also Nursing Associations and Drug Manufacturers. A list of over 75 perfins is given by way of example.
32. Foreign Security Perforations. 236
Belgium, in 1878, was the first country to follow Britain in adopting the use of perfins. Various interesting foreign perfins are briefly mentioned and some fancy ones illustrated.
33. Perforation Machines and their Operation 238
A brief introduction to the principles of perforating, machines and details of Sloper's patents are given.
34. Checklist of Great Britain stamps known to have been perforated. 240
A list of all British Stamps which are known with perfins on is given, numbered according to Stanley Gibbons Specialised Catalogue. Separate lists are included for commemorative and regional stamps.
35. Acknowledgements and References 265
36. Chronological Table of Developments in Security Printing and Perforating 267
- Appendix 1 Detailed Charts of Line - Engraved Dies.
- Appendix 2 Detailed Charts of the Surface Printed Issues. 346
- Appendix 3 Check List of Identified Users and Presumed Users 1868-1883. 364
The above three appendices list every perfin known on the stamps of Great Britain between 1868 and 1883 i.e. up to but not including the low values issue of 1880. The charts in

1946 - Victory

3d violet

Earliest date-of use known - 20th December 1922

During 1949 a new die was obtained from Messers., Sloper & Co., and it seems that for an interim period certain-values may have been perforated by Slopers themselves, thereby creating a "Provisional"(?). This differs from the standard die by being greater in overall height and width, 12mm instead of 11½ and 13½mm instead of 12½mm respectively. Also in the "Provisional", the centre hole of the W lines up with the second hole of the uprights whereas in the normal die it is higher.

Mr Jan C. Prins has a copy of the "Provisional", on cover, from H.M.S.O. Shepherders Walk, London., N.1, dated 15th June 1949.

P.T.O.

Miss M.E. Thornton has examples dated 31st March 1949-and
8th April 1949.

Provisional Die - HM/SO
1941-42 K.G.VI Light colours
2½d ultramarine -

3d violet

Standard Die - HM/SO

Although the change to this- die did not take place until 1949
the 1d, 2d & 2½d values of the K.G.VI dark colours, which were
replaced several years earlier have been reported. Does anyone
have postmark dates for these?
