MEMBERS WANTS

Mr R Williamson

is looking for the Canadian perfin LA (Legislative Assembly) on or off cover, and would be pleased to hear from anyone aving such items for disposal. He also tells us that he originally came from Ilford in Essex and is trying to form a collection of perfins connected with this area. He would be glad to hear from anyone who can help in this respect.

Sometime ago Mr Williamson purchased about 25,000 S.G. type 83, 98, 99, 101, 102 amongst which there were many perfins. He says that if anyone is looking for any particular perfin of the period these S.G. numbers were in use, he will check to see if he can be of any assistance.

EDITORIAL JOTTINGS

Due to pressure of other work this issue looks like being issued a week later than intended. I aim to get the bulletin in the mail or. the last day of the month for which they are dated but this issue will probably go out on 7th or 8th July. I am afraid that the situation is unlikely to improve for a month or two so I hope you will bear with me. I will endeavour to get a bulletin of some sort published each month, it may, however, be a little smaller than usual.

The catalogue for the 6th Postal Auction will be included with this bulletin and I hope members will give it the same support as has been given in the past.

For the reasons previously stated no further work has been done on cutting the stencils for the chapters of Mr Jennings' book which I have to hand. With the limited time that I shall have available over the future months it may be some time before the next chapter appears. If anyone can assist with cutting the stencils I would be most grateful for an offer of help.

16.4 RICHMOND (B) SURREY

The Borough which lies on the south bank of the Thames contains some 3,000 acres of park, pleasure grounds and common land, including the famous Richmond Park and Kew Gardens.

The residential development of Richmond was largely due to the presence of the Royal Palace which dates from the time of Edward I.

It received its Charter of Incorporation in 1890.

Perfins:	(i)	RBC	H	12,14,8	(5)
	(ii)	RBC	H	10,11,7	(4½)

Slopers supply perfins to this authority and it is believed that they were introduced about 1939.

Die (i) is not positively identified and is only offered as a 'probable'.

16.5 ROCHESTER (B) KENT,

Rochester was the site of a Roman encampment called DUROBRIVIS - from the Celtic 'DWR' - water and 'BRIVA' - ferry.

After the Romans the Saxons settled there calling the place HROFE - CAESTRE - "Hrof's Castle" after their chieftain Hrof.

Rochester received its first charter at the hands of Richard I in 1190.

Perfin:		R	H	12	(6)
---------	--	---	---	----	-----

Perfins are produced in the Council Offices on a machine of unknown make which was obtained in 1938.

The machine bears two type or serial numbers, "A399" and "M53" and contains a four impression die which perforates a block of four normal size definitive stamps.

16.6 ROTHERHAM (CB) YORKSHIRE

Modern Rotherham is largely a product of the Industrial Revolution but excavations in the town reveal traces of settlements back beyond the Bronze Age.

In the Domesday Book the town is mentioned as RODREHAM ACUN and after the Norman Conquest the Manor was granted to the Earl of Mortain, half brother to William I.

Perfin:		RC	H	10,7	(4½)
---------	--	----	---	------	------

Perfins have been in use since at least 1928 but it is not known whether the above die has been employed for the whole period.

Slopers currently supply perfins in denominations of ½d, 1d, 1½d, 2½d, 3d, 4d, 4½d, 6d, & 1/-

"U L S" PERFIN

By Chris. J. T. Carr

Some time ago I received a large envelope of perfins which had been donated to the Society. They were nearly all KEVII and many of them were in very poor condition as they had been soaked in water and the colour had washed out of them.

I decided to sort out the good from the bad and make up into suitable lots. However, I soon found that they were apparently all of one perfin, namely ULS, but on closer examination I found that there were several varieties. On referring to the Identity Catalogue I found that only two types of this perfin were recorded. These stamps were then sorted and I discovered that there were seven distinctly different types amongst them. Some had clear dated postmarks and I have provisionally arranged them into the following order:

		<u>Holes</u>	<u>Height</u>	<u>Overall</u>	<u>Dates</u>
I	U.L.S	10,7,12 (S looks almost like an 8)	6mm.	19mm.	-
II	U.L.S	10,7,13	6	19	Nov. 1904
III	U.L.S	10,7,12 (S more symmetrical )	6	19	1904
IV	U.L.S	8,6,9	5	16	-
V	U.L.S	10,7,10	5	15	Jan. 1905
VI	U.L.S	10,7,11	6½	16½	Jan.1905-April 1908
VII	U.L.S	8,6,10	5	15	Aug.1948-Dec. 1918

I am assuming that all these belong to one user, and this was almost certainly the Union of London & Smith's Bank Limited which was incorporated into the National & Provincial Bank in December 1918.

Two lots of stamps made up from this donation are being offered as lots 5 and 6 in the 6th auction.

I would be interested to hear from owners of perfins showing UL/SB which was also used by this bank, presumably earlier than KEVII. Please write and let me have details of any stamps that you have with this perfin.
