CATALOGUES

The following is an extract from a letter from Basil Tomkins which shows how well cataloguing is progressing.

"The compiling of the two catalogues (Simplified & Identities) is proceeding steadily. From the beginning of 1965 to date, I have received over 50 advices of new identities from 15 different members,, totalling over 300 new identities. Some of these have already been listed and others will be included in due course. Further lists will be welcome".

SUBSCRIPTIONS DUE ON:

AMOUNT:

MR JENNING'S BOOK

A further chapter is being despatched with this issue and is again priced at 2/-. A statement will be included with the copies going to those members who are in arrears or who do not have a credit balance. Would these members please see that a remittance is sent to the Treasurer as soon as possible please? No statement means that you are in the clear.

One or two members have asked how the numbering of the pages issued in the past ties up with the latest numbering on the pages typed by Mr Jennings himself (script type). As we understand it, Mr Jennings has now divide his work up into chapters and in the new numbering has allowed for expansion of individual chapters without having to renumber again. Thus,

Pages JB1-JR9	become	chapter	14	and	to	be	numbered	98	on.
JB10-12	"	"	7	"	"	"	"	23	"
JB13-16	"	"	4	"	"	"	"	12	"
JB17-18	"	"	30	"	"	"	"	231	"
JB19-48	"	"	20	"	"	"	"	150	"
* JB47-56	"	"	16	"	"	"	"	130	"
JB57-76	"	"	15	"	"	"	"	110	"

_ * NOTE The first two pages of this section were inadvertently numbered the same as the last two of the railways chapter.

SUBSCRIPTIONS

Certain members are still outstanding with their subs, and their copy of this issue will be marked accordingly on the front page. Would these members please see that the Treasurer gets a remittance as soon as possible?

For other members whose subscription falls due in the next month or so, the date on the front is just a reminder.

As a result of devaluation we shall, in future, obtain more sterling for our dollars. Under the old valuation \$1.50 gave us slightly more than 10/- which was designed to assist with the exchange costs. The extra 10¢ did not always cover the exchange costs especially with cheques. Similarly, American members will have noted that postage to them for many months past had increased to 4d, i.e. an extra 14¢/per year. Thus the Society had taken these increases without putting, up the overseas subscription, and now we would like to retain the \$1.50 to cover these extra costs.

THIS MONTH'S CONTENTS

- 3 pages of general interest - 3 sheets.
- Pages I1 & I2 of the Identities Catalogue - 2 sheets.
- Pages 40 & 41 of the Simplified Catalogue - 2 sheets.
- Page 75 of the Officials Catalogue - 1 sheet
- Council Listing - 1 page containing 8.22 & 8.23 (H) which replaces a previously issued page containing 8.22 only.

COMMENTS ON THE S.E.P.S. POSTAL AUCTIONS

By : The Person Who Runs Them.

This last auction, which took a long time to prepare, was the 7th in the history of the Society. A glance at the list of prices realised will probably make some members kick themselves for not sending in bids or for not bidding high enough.

It is rather unfortunate that many lots were not sold, but I think this is because several members think that a perfin is a perfin whether the stamp is a stamp or just a torn piece of paper. By this I mean that many lots contained damaged stamps (do you collect damaged perfins? I don't, or am I being too particular?) and so they did not attract bids.

In order to clear the lots, I am offering the unsold lots, subject to reserve where stated, until the end of December on the basis of no reasonable offer refused. For those who do not know how much to bid, ponder a while on how much you would be prepared to pay a dealer and then offer that amount, which may be as low as 6d.

Remember, first come, first served.

The next auction will be early next year and will consist of LINE ENGRAVED G.B. ONLY, i.e. 1d reds, 2d blues, small ½d's and 1½d's. A comprehensive catalogue will be issued with full details about each stamp. Further details will be announced in the next bulletin.

8.22 HUNSTANTON (UDC) NORFOLK

Hunstanton was originally a small fishing village known as Old Hunstanton and in about 1840 the Lord of the Manor decided to develop the place as a sea bathing resort.

There is little actual history attached to the town but according to legend, St. Edmund landed on the cliffs, now known as St. Edmund's Point, before being crowned as King of East Anglia at Bury St. Edmunds.

The chief industry of the town today is catering for holiday makers.

Perfin: HU/DC 2H 10,8/9,7 (4½)

Nothing is known of this Council's use of perfins but it is fairly obvious that supplies are obtained from Slopers.

8.23 HORSHAM (UDC) SUSSEX

Horsham was not recorded in the Domesday Survey and, although mentioned as a borough in 1236, it was never granted a charter of incorporation.

It remained an unofficial Borough for at least 650 years, finally losing all rights to its claims to such status in 1885.

Perfin: HU/DC 2H 10,8/9,7 (4½)

Perfins have been in use since 1946 and have been supplied by Slopers in all denominations.

Current values in use are, 1½d, 3d, 4d, and up until recently 4½d.
